8. THE INDUSTRY INSIDER - A Series of Podcasts

NISP Council S.P.I.T in collaboration with IIC S.P.I.T. conducted a series of Podcasts "The Industry Insider" with speakers who are experts from industry, startup world and business. The series aimed to invite renowned podcast speakers to share their expertise, engage in meaningful discussions, and provide valuable insights on diverse topics to foster a culture of learning, critical thinking, and engagement among students.

i. The Industry Insider #1

The first session was conducted along with **Mr. Yash Gawde**, who is an NFT artist and founder of Elite NFT with great knowledge in the field of Web3 on 15th April 2023. He talked about his experiences on building a startup from scratch, his life learnings, what an NFT is? How unique digital artworks are created and uploaded on blockchain to sell them as non-fungible tokens (NFTs) which in turn completely revolutionized the art market and enabled collectors to own rare, authenticated digital assets.

ii. The Industry Insider #2

Mr. Surya Pasricha was invited as a guest for our second podcast on 22nd April, 2023. Mr. Surya is a social media strategist, organic growth expert and founder of BaatCheet media. The podcast commenced by exploring the early life and background of Mr. Surya. The guest provided insights into their upbringing, family background, education, initial entrepreneurial journey, etc.

iii. The Industry Insider #3

For the third episode of "The Industry Insider", we had the distinguished speaker **Ms. Namrata Mehta** from "Strokes by Namrata Mehta" which is a designer brand for tableware, handbags and more started in 2020. She emphasized on the aspect of "personal branding" as one of the key features in the development of her company. She shared valuable lessons about managing the company through her enormous experience.

iv. The Industry Insider #4

The last session of the Podcast series was conducted on 28th May 2023 with **Mr. Biren Parekh**, Director CRISIL Limited, Fintech Thought Leader, Angel Investor - 13x Startup and a distinguished person in the field of Management and Fintech. Dr. Biren spoke on Banking, He talked about Angel Investing and of the few different startups that he sees as upcoming and revolutionary.

- Technology. He is also the Chief Finance Officer & Head of Academic Relations, Sardar Patel Technology Business Incubator, In charge of Innovation & Entrepreneurship Development Centre supported by Department of Science & Technology, Government of India.

He spoke about the different acts which were passed by the government Of India over the years of patenting. Through an example, he explained hypothetically if we wanted to patent that particular product how we go about it. He also threw light on the places where patenting happens and the charges of getting one's innovation patent. Similarly, he also shared what is copyright and the process and products associated with it. The viewers remained engaged from the start till the end and gained some valuable information through this webinar. They understood that in the future as entrepreneurs, if they innovate something new, what steps they need to follow to protect it through Intellectual Property Rights.

18. Event Name: Patent Drafting Workshop (Online)

Speaker: Prof.Kiran Talele and Nayan J. Rawal

Date March 18-22, 2021

Patent drafting workshop was conducted for the students of SPIT in an online mode.

Deliverables of the event can be summarized as follows.

19. Event Name: Session on IPR-Trademark and Industrial Design

Speaker: Veena Ajay Lala

Date: June 12, 2019

Ms Veena Lala delivered a talk on IPR – Trademark and Industrial Design for final year students of Comp, Electronics, IT and EXTC Engineering students.

The talk on Intellectual Property Rights focusing on Trademark and Industrial Design was held at SPIT on June 12, 2019. The distinguished speaker, Ms Veena Lala provided a comprehensive overview of the significance of trademarks and industrial designs in the realm of intellectual property. Final year students of Comp, Electronics, IT and EXTC Engineering students attended the session.

Sardar Patel Institute of Technology

Munshi Nagar Andheri (West), Mumbai-400 058

Autonomous Institute Affiliated to Mumbai University

The speaker initiated the talk by defining trademarks as distinctive symbols, words, or phrases that serve to identify and differentiate the source of goods or services. The audience gained insight into the elements of trademarks, which include words, logos, symbols, and even sounds. Emphasis was placed on the importance of registering trademarks for enhanced legal protection.

In conclusion, Trademarks and Industrial Designs stand as pillars in the realm of intellectual property rights, safeguarding innovation and promoting fair competition. As we navigate the dynamic landscape of business and technology, understanding the nuances of these protections becomes paramount. Let us champion the cause of creativity and innovation by upholding the principles of intellectual property rights.

Session on IPR-Trademark and Industrial Design

20. Event Name: Patent Drafting Workshop

Speaker : Prof. Kiran Talele, Abhishek Pandurangi and Parvez Kudroli of Khuran & Khurana LLP Mumbai on July 30-31, 2018

A Patent Drafting Workshop was conducted at SPIT, providing a platform for participants to gain practical insights into the process of drafting patents. The workshop, led by the experienced facilitator

Rohit Dabir

Sardar Patel Institute of Technology

Munshi Nagar Andheri (West), Mumbai-400 058

Autonomous Institute Affiliated to Mumbai University

- Parvez Kudrolli, aimed to equip participants with the essential skills and knowledge necessary for effective patent drafting.

Workshop Agenda:

Introduction to Patent Drafting: The workshop began with a comprehensive introduction to the concept of patent drafting. Mr Kudroli highlighted the importance of patents in protecting inventions and fostering innovation. Participants were given an overview of the key components of a patent document.

Understanding Patentable Subject Matter: The facilitator delved into the criteria for patentability, emphasizing the importance of novelty, non-obviousness, and industrial applicability. Practical examples were provided to illustrate how to identify patentable subject matter.

Components of a Patent Application: Participants were guided through the various sections of a patent application, including the title, abstract, background, summary of the invention, detailed

description, claims, and drawings. Special attention was given to the intricacies of drafting clear and concise patent claims.

Drafting Techniques and Strategies: Mr Abhishek shared valuable drafting techniques and strategies to enhance the clarity and effectiveness of a patent application. Participants were encouraged to consider the perspective of patent examiners and to use precise language in their drafts.

The Patent Drafting Workshop concluded with a recap of key takeaways and a Q&A session where participants could seek clarification on any aspects of the patent drafting process. Prof. Talele expressed gratitude to the participants for their active engagement and encouraged them to apply the skills acquired in their future endeavours.

30. Name of the Program: TALK ON LEADERSHIP IEEE WIE SPIT 2016-17 by Mr. Aiyappan Pillai

A talkative person inspired each participant to believe in the leader within herself/himself. He emphasized that participant should not just be good managers, but also good leaders. He also explained how important good leadership is for an organization as it bestows high morale, good employee retention, and sustainable long-term success. Her presentation was focusing on different curves for formation of leadership.

31. Name of the Program: Social Entrepreneurship Initiative: 20th December 2018. By E-Cell, IR cell SPIT

E-Cell S.P.I.T conducted a social drive program on the 20th of December in collaboration with Bombay YMCA. This initiative saw participation from women who come from socially backward backgrounds and was aimed at inspiring them to be able to stand out for themselves and make a successful living.

Bhavna

Sardar Patel Institute of Technology

Munshi Nagar Andheri (West), Mumbai-400 058

Autonomous Institute Affiliated to Mumbai University

The atmosphere for the session was set. All the women sitting in the audience had one thing in common- the desire to be independent. Many of them did not have an educational background but their willingness to learn was indomitable. Most of them did not know why they were there but their inquisitive eyes fuelled the spirits of the members of the SPIT E-Cell. The first event in line was the guest speaker's session which was conducted by Mrs. Neelima Deshpande from Abhyudaya, SPJIMR. This session started with the audience introducing themselves along with their hobbies. Then Mrs. Deshpande went on to talk about how women feel in various situations, especially situations which bring about major changes in their lives. She started the conversation by sharing her own story, about how she felt when her family was about to shift from Delhi to Mumbai. After the audience was more comfortable with the conversation, she asked the women to share their own experiences. Mrs. Neelima encouraged the women to talk about times when they have experienced anger or irritation and told them how they could channel these emotions properly to avoid chaos in their lives. She then told them how one must handle the priorities in their life and how women tend to treat themselves as the last priority. She asked the audience to take some time and spend it with themselves. The goal was to make them realize that thinking about themselves is not wrong and that they should understand their individuality and not let anyone take them for granted. That one should make themselves happy before looking out for other people's happiness. She also emphasised how each one of them was special and that they and even their loved ones should accept them for that rather than complaining or trying to change under societal pressure. As the session concluded, a new flame of self-awareness was ignited in the hearts of the women sitting there. Mrs. Despande's session was

Sardar Patel Institute of Technology

Munshi Nagar Andheri (West), Mumbai-400 058

Autonomous Institute Affiliated to Mumbai University

followed by a small activity. A 'Board of Aspirations' was circulated among the audience. They were given sketch pens and asked to write whatever they wanted in life on that board. They were told that this was an anonymous activity which was aimed at getting them to know their deepest desires. Many of them wrote their aspirations on it, while some were hesitant to write. But at least one thing was sure, even if they had not written it on that board, they did come face to face with their aspirations as they thought of it when the members circulated the board.

32. Name of the Program: Social Entrepreneurship Drive: By Sardar Patel Institute of Technology, Bhavans Campus, Andheri West, Mumbai Date: 6th October 2019

Participants-100

Entrepreneurship Drive in Collaboration with Shelter Don Bosco

Event Name: Social Entrepreneurship Drive in Collaboration with Shelter Don Bosco

IIC under Social Entrepreneurship had conducted a social drive, in collaboration with Shelter Don Bosco. In this initiative students attended the Basement University talk and donated items for the cause of social entrepreneurship. The students were asked to donate maggi, soap and shampoo which are daily requirements of the shelter. Through this social drive, the following amount was dropped and delivered to the Shelter. The List of items is mentioned below.

Maggi	79 pieces
Soap	4 Pieces
Shampoo	7 Pieces
Onion	2 Kg
Potato	4 Kg

33. Name of the Program: Social Drive by E Cell SPIT on 30 Dec 2019.

No. of participants: 55

The E Cell of SPIT organised a visit to the slums of Mumbai namely Versova with a motive to

A handwritten signature in blue ink is placed over a large blue 'X' mark, indicating approval or authentication.
