Bhartiya Vidya Bhavan's
Sardar Patel Institute of Technology
(An Autonomous Institute Affiliated to University of Mumbai)
Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India

Policy Document on Environment and Energy Usage

The Environment and Energy Usage Policy of Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology, Andheri (W), Mumbai aims to manage energy in a systematic way to minimize its impact on the environment. The policy involves exploring renewable energy resources to reduce the burden on the government, finding substitute natural resources to address the energy crisis as well as adopting the recent technology to reduce the energy consumption.

This policy applies to all components of the institution and to all its stakeholders, governing various activities undertaken by the institution. It seeks to incorporate efficiency and environmental awareness into everyday activities, helping to fulfill the institution's responsibilities and commitment to conserving natural resources and limiting their usage.

The institute's various student clubs, such as the Rotaract Club and Enactus S.P.I.T., serve as official platforms dedicated to promoting environmental awareness. They undertake green initiatives and conduct programs to promote green literacy, aimed at saving energy and protecting the environment

- Establishing an organized waste management system.
- Implementing a rainwater harvesting facility.
- Initiating a tree plantation campaign.
- Installing photovoltaic solar panels to generate alternative energy.
- Installing LED bulbs throughout the campus to save energy.
- Notifying about optimum utilization of Air Conditioners (ACs) as an official order. To keep the temperature of at ACs at 25°C to support the environment. To operate the ACs as per timetable. To keep the curtains on windows open to use natural light in all the departments.
- To restrict Public Transport within the campus and access is manned at all entry points and encourage them to use pedestrian-friendly roads.

- To restrict entry of students' vehicles in the campus and encourage them to use of Public Transport for commuting.
- Engaging in dialogues with government agencies, municipal corporations, the affiliating university, and local organizations to collaborate on environmental, energy efficiency, and sustainable development initiatives and enhancing environmental knowledge and skills among employees and students under Liberal Learning Courses as a part of curriculum.
- Training employees and students through students' club and organizing annual tree planting activities with their participation.

This policy document will be communicated to students and employees through internal communication channels and making it available to all stakeholders on the institutional website. Environment and Energy Policy, objectives, and targets will be evaluated through energy audits to assess our energy usage and evaluating its environmental impact.
