Bhartiya Vidya Bhavan's, Sardar Patel Institute of Technology
(An Autonomous Institute Affiliated to University of Mumbai)
Bhavan's Campus, Munshi Nagar, Andheri (West),
Mumbai-400058-India

Abhyudaya is an initiative of Bharatiya Vidya Bhavan, with a unique pedagogic innovation at S. P. Jain Institute of Management and Research (SPJIMR) that aims to foster social responsibility among B-school students through experiential learning. Abhyudaya is a non-profit working with bright but underprivileged children from low-income localities of Andheri K-West ward area. Abhyudaya calls these children as Sitaras. Currently it has 500+ Sitaras in their project, coming from 70 municipal and aided schools. A unique feature of Abhyudaya is that first year MBA students at SPJIMR mentor the Sitaras through home visits.

SPJIMR is located in the Bhavan's campus in Andheri (W), Mumbai, Maharashtra. Sardar Patel Institute of Technology (S.P.I.T.) is also situated in the same campus. With the desire to serve the society and ensuring all dimensional holistic growth of the learner, S.P.I.T. has also introduced a course titled "Mentoring of School Children at SPIT (Abhyudaya)" as a part of curriculum under "ABLL@ LLC"® (Activity Based Liberal Learning about Life, Literature and Culture) in Six semesters in two sequels namely "SEVA"® (Social Empowerment through Various Activities), and "SATVA"® (Self accomplishment through various Activities).

Every term SPIT sends around 80 volunteer students to Abhyudaya under SEVA program. These volunteers help us in many areas. On Sundays, we conduct classes for Abhyudaya Sitaras. SPIT students help them teach Math, Science when our teachers are away. They also reinforce the lessons taught in smaller groups as teacher assistants. At times, they hold doubt solving session for our senior Sitaras. Above all they support us with data entry and library management in our office.

SPJIMR truly appreciate the assistance provided by S.P.I.T. students and look forward to continue working with S.P.I.T.!

Subject: Acknowledgement letter

Dear Sir,

Greetings!!!

Every term SPIT sends around 80 volunteer students to Abhyudaya under SEVA program. These volunteers help us in many areas. On Sundays, we conduct classes for Abhyudaya Sitaras. SPIT students help them teach Math, Science when our teachers are away. They also reinforce the lessons taught in smaller groups as teacher assistants. At times, they hold doubt solving session for our senior Sitaras. Above all they support us with data entry and library management in our office.

We truly appreciate the assistance provided by SPIT students and look forward to continue working with you

Regards,

Mrs. Arati Nagaraj

NSS CAMP 2023
BORDI DAHANU

NSS CAMP DAY-1 27/05/2023

The enthusiastic group of SPIT NSS students embarked on a journey to Bordi village in Maharashtra aboard the Saurashtra Express at 9:30 am on 27th May 2023. Filled with excitement and anticipation, the group was eager to immerse themselves in the rich cultural heritage and picturesque beauty of

the region. With a shared purpose of making a positive impact through community service and sustainable development, they are prepared to contribute their time, skills, and efforts to uplift the lives of the villagers in Bordi. As they board the train, their spirits are high, ready to embrace the upcoming adventure and create lasting memories while leaving a meaningful mark on the lives of the locals in Bordi village. The Train Reached Gholwad railway station at 12:00 pm, from where they took cab to go to Bordi Save Camp Site and reached by 12:30 pm.

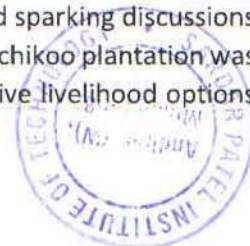

A camp briefing held was then held in the quadrangle by the Teachers and Co-ordinators (Prof. Pramod Jagannnath Bide, Prof. Govind Haldankar, Prof. Surekha Dholay, Mrs Meena) on the first day aimed to provide the students with essential information and set the tone for the days to come. The camp coordinators, support staff, and fellow volunteers were introduced during the briefing. The importance of teamwork, mutual respect, and cooperation in achieving the camp objectives were emphasized. This introduction allowed everyone to get acquainted, fostering a sense of camaraderie and unity among the participants. The detailed camp schedule was presented, outlining the activities, workshops, and sessions planned for each day, providing an overview of the diverse range of initiatives, including community development projects, environmental conservation efforts, health camps, awareness programs, and skill development sessions. The schedule allowed everyone to understand the breadth and depth of opportunities to actively contribute and make a positive impact on the lives of the villagers. The camp briefing on the first day successfully provided a comprehensive overview of the camp's objectives, schedule, rules, and individual roles. It set the foundation for an inclusive, purposeful, and impactful camp experience. Volunteers left the briefing feeling motivated, prepared, and eager to embark on their journey of community service in Bordi Village. This was followed by a delicious Lunch prepared on the camp site by the hosts at 1:15 pm.

After a fulfilling lunch, the volunteers gathered for a skit practice session, utilizing the allotted time to enhance their creative expression and deliver impactful messages through theatrical performances. The skit practice served as a platform to communicate social issues, raise awareness, and stimulate discussions among the villagers in Bordi. Script Development, Rehearsals and Role Assignments, Guidance and Feedback, Collaborative Learning were some of the qualities observed followed by a Final Run-through.

At 3:15 PM, the camp participants eagerly gathered to listen to an enlightening speech delivered by esteemed soil scientist, Mr. Ashok Bhoir, on the topic of organic farming. With his expertise and passion for sustainable agriculture, Mr. Bhoir aimed to educate and inspire the audience about the benefits and practices of organic farming. He discussed the benefits of organic farming, including improved soil fertility, biodiversity preservation, and healthier produce. He shared techniques such as crop rotation and composting that enhance organic farming's effectiveness. Additionally, he highlighted the market demand for organic produce and its economic viability for farmers. Mr. Bhoir called upon the audience to promote organic farming, emphasizing the need for collective action to protect the environment and ensure a sustainable future. The speech by Mr. Ashok Bhoir on organic farming at 3:15 PM was met with enthusiastic applause from the camp participants. His expertise, passion, and ability to articulate the importance of organic farming inspired the audience to explore sustainable agricultural practices and consider the broader impact of their choices on the environment and society.

At the Bordi Village Gram Panchayat office, a series of engaging activities took place, benefiting both the villagers and the local school students. The event began with an enlightening skit performance that addressed social issues prevalent in the village, capturing the attention and sparking discussions among the audience. Following the skit, a presentation on bamboo business and chikoo plantation was conducted, aimed at empowering the villagers with knowledge about alternative livelihood options

Schaudhary

and sustainable agriculture. The presentation provided insights into the potential of bamboo-based industries and the benefits of chikoo plantation for economic growth and environmental conservation. Afterward, a career counseling session was held specifically for the village school students. The session aimed to broaden their horizons, providing information about various career paths and educational opportunities beyond their immediate surroundings. The students received guidance on pursuing higher education, vocational training, and entrepreneurial ventures. To put theory into practice, the SPIT NSS students actively participated in a bamboo plantation activity. Equipped with the necessary tools and guidance, they planted bamboo saplings in designated areas, contributing to the greening of the village and reinforcing the importance of environmental sustainability. Overall, the activities conducted at the Bordi Village Gram Panchayat office encompassed a range of initiatives aimed at empowering the villagers and the village school students. Through skit performances, presentations, career counseling, and hands-on plantation activities, the event fostered community engagement, knowledge sharing, and the cultivation of a sustainable and prosperous future for Bordi Village.

After the engaging activities at the Bordi Village Gram Panchayat office, a much-needed tea break was arranged for all the participants. The break allowed everyone to relax, socialize, and rejuvenate with a hot cup of tea and light refreshments. It provided an opportunity for the villagers, students, and volunteers to connect and share their experiences from the day's events. Following the tea break, a fun-filled time was organized on the beautiful beach of Bordi. Participants enjoyed the scenic views, walked along the shoreline, and engaged in beach games and activities. The beach excursion offered a refreshing change of scenery and allowed everyone to unwind and embrace the natural beauty of the surroundings. Upon returning to the campsite, cultural activities such as singing and dancing were organized for the NSS students. The participants showcased their talents, singing regional songs and performing traditional dances. The cultural activities served as a platform to celebrate the diversity of Indian culture and foster a sense of unity and togetherness among the camp participants. As the day progressed, dinner was served at the campsite. A sumptuous meal was prepared, featuring local delicacies and nutritious dishes. The participants gathered around, sharing stories and enjoying the delicious food, strengthening the bonds formed during the camp activities. The tea break, beach time, cultural activities, and dinner provided moments of relaxation, enjoyment, and cultural exchange within the camp setting. These activities not only added a touch of leisure and entertainment to the camp experience but also promoted camaraderie and a sense of community among the participants.

As the night fell upon the campsite, a sense of tranquillity enveloped the air. The students, filled with memories of the day's activities and a deep sense of purpose, retired to their sleeping quarters in preparation for the next day of the camp. And so, as the night settled in, the campsite became a haven of dreams and aspirations, a place where the spirit of volunteerism thrived, and where the next chapter of their journey would unfold.

NSS CAMP DAY-2 NSS CAMP DAY-1 28/05/2023

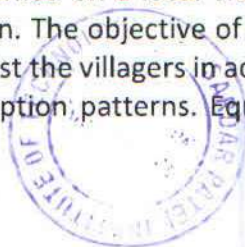

As the sun began to rise on the second day of the camp, the students awoke at 6 am in their beachside campsite. The gentle sound of waves crashing against the shore and the refreshing sea breeze greeted them, setting a tranquil and picturesque ambiance. Excitement filled the air as the students prepared themselves for another day of adventure, learning, and community engagement in the idyllic beach surroundings.

At 6:30 am, the camp participants gathered for a rejuvenating yoga session led by the faculty a certified yoga instructor, Prof. Biradar. The session aimed to provide a serene start to the day and promote physical and mental well-being. The practice of yoga not only nourished their bodies but also nurtured their minds and spirits, instilling a sense of balance, focus, and well-being. The participants emerged from the session energized and ready to embrace the day's activities with renewed enthusiasm and a heightened sense of self-awareness. Through a series of asanas, pranayama, and meditation, the session fostered balance, focus, and relaxation among the future IT professionals, preparing them for the day ahead.

After the invigorating yoga session, the students got refreshed and made their way to the breakfast area by 8:30 am. A delicious spread awaited them, including a variety of nutritious options and a special highlight – the freshly harvested chikoo fruit. The students gathered around, savouring the flavourful chikoo and indulging in a wholesome breakfast, ready to embrace the day's activities with a burst of energy and the delightful taste of the local produce.

Following a visit to the Gram Panchayat office in Gholvad, the camp participants were divided into four groups, each comprising eleven members. Accompanied by village female representatives, they embarked on a local village survey with a specific focus on electrical appliances and consumption. The objective of the survey was to collect data that would aid in devising strategies to assist the villagers in adopting renewable solar energy based on their specific needs and consumption patterns. Equipped with survey forms and guided by the

Schaudhary

village representatives, the groups visited different households and interacted with the villagers. They diligently recorded information regarding the types of electrical appliances used, their energy consumption patterns, and the challenges faced by the villagers in accessing reliable and sustainable electricity. The data collected during the survey would prove invaluable in understanding the energy needs of the villagers and identifying opportunities for implementing solar energy solutions. It would help in developing a comprehensive plan to promote renewable energy and address the energy requirements of the community, fostering sustainable development and reducing dependence on non-renewable sources. By actively involving the villagers in the survey process and engaging with female representatives, the camp participants ensured a holistic and inclusive approach. This collaboration promoted knowledge sharing, community empowerment, and a sense of ownership over the renewable energy initiatives to be implemented. The survey conducted by the camp participants in partnership with the village female representatives marked a significant step towards promoting renewable solar energy in Gholvad. The data collected would serve as a foundation for future planning, enabling the camp organizers to design effective strategies and initiatives that align with the specific needs and aspirations of the villagers.

After completing the village survey, the students gathered on the beachside ground of Dattakrishna Mandir. In this setting, they had the opportunity to engage in an interactive session with the Panchayat Sevak, Shri Rajendra Bujad, and the villagers, discussing various social topics relevant to the village. The focus of the discussion revolved around vital social topics affecting the village, including education and farming. A particular emphasis was placed on the pressing need for bore well digging to address the village's water scarcity. Representatives from a technological institute, in the role of teachers, took the lead in guiding and educating the villagers on the intricacies of bore well digging. Their expertise provided valuable insights into the process, addressing factors like suitable locations, equipment requirements, and potential challenges. The teachers emphasized the significance of meticulous planning, community involvement, and sustainable water management practices to ensure a successful outcome. Throughout the interaction, the students gained profound insights into the realities of village life compared to city life. They became aware of the unique challenges faced by rural communities, particularly in terms of education, farming, and access to basic amenities like water. This exposure instilled a sense of empathy and understanding within the students, motivating them to actively contribute to the betterment of rural areas. The dialogue at Dattakrishna Mandir nurtured a spirit of collaboration and knowledge exchange, bringing together the students, Panchayat Sevak, teachers, and villagers as equal stakeholders in community development. By addressing the social topics and challenges faced by the village, the session sought to inspire collective action and foster sustainable solutions. Overall, the gathering on the beachside ground served as a transformative platform, enabling meaningful interactions between the students, Panchayat Sevak, teachers, and villagers. It empowered the villagers with valuable guidance on bore well digging, encouraged a mutual understanding between urban and rural perspectives, and ignited a sense of responsibility in the students to contribute positively to the lives of those in the village.

After the interactive session at Dattakrishna Mandir, the students enjoyed a delicious lunch served at 2:30 pm. As they savored the meal, the students connected with each other, sharing

A handwritten signature in blue ink, appearing to read "Schaudhary", with a horizontal line and a vertical line extending from the end.

laughter and engaging in conversations. The lunch break provided a refreshing break and energized them for the rest of the day's activities.

The visit to Saave Farm after lunch proved to be an engaging and educational experience for the students. Upon arrival, they had the privilege of interacting with Mr. Achyut Suchit Saave, the owner of the chikoo farm. The students were given a practical demonstration on the importance of cutting wild grass around the fruit trees, followed by a comprehensive tour of the sprawling 10-acre farm. After the tour, an interactive Q&A session took place, allowing the students to seek clarification and gain valuable insights into the intricacies of farming and the daily life of a farmer. This session provided a platform for the students to deepen their understanding and appreciate the challenges and rewards associated with agricultural practices. In a gesture of warm hospitality, the students were treated to a refreshing nariyal (coconut) drink by Mr. Saave himself. They also had the pleasure of savoring other fruits from the farm, such as mama phal and phaphanas, while witnessing a demonstration of the tools used in farm operations. The farm owner and workers extended their generosity and ensured the students felt welcome and appreciated throughout the visit. The students were truly impressed by the hospitality displayed by Mr. Saave and his team. The firsthand experience of observing farm practices, the opportunity to interact with the owner, and the taste of farm-fresh fruits left a lasting impression on the students. The visit to Saave Farm not only enriched their knowledge of agriculture but also fostered a sense of respect and admiration for the hard work and dedication of farmers. Overall, the visit to Saave Farm served as a valuable learning experience, promoting a deeper appreciation for farming and showcasing the importance of hospitality and community connections. The students left with newfound insights, inspired by the dedication and passion exhibited by Mr. Saave and his team.

After returning to the beachside campsite, the students enjoyed a rejuvenating tea and biscuits break. The aroma of freshly brewed tea and the assortment of biscuits provided a much-needed moment of relaxation and refreshment. The students gathered around, sipping tea and nibbling on biscuits, while taking in the scenic beach view.

Following the tea break, a session of group discussion and reflection was conducted with the teachers.

- During the session, students began by sharing their first-time experiences of visiting village houses, using a common washroom, and witnessing the creation of handicrafts in the village. This allowed them to gain valuable insights into the rural way of life and the challenges faced by the villagers.
- Following these experiences, Prof. Dholay shared impactful life lessons. She emphasized that society is not shaped by a single individual, but by the collective efforts of everyone. She highlighted the importance of recognizing the contributions of countless individuals behind our success and the need to give back to society. Prof. Dholay also drew a parallel between the limitations of AI/ML and deep learning, stressing the significance of maintaining a balance between technology and life.
- Prof. Pramod Bide presented an eye-opening realization during the session. He pointed out that while we often bargain with street vegetable vendors who struggle to make ends meet, we seldom bargain when purchasing branded products, leading to the exploitation of the economically weaker sections. This revelation made the

Schaudhary

students reflect on their own purchasing choices and the need for fairness and equality in society.

- Prof. Govind Haldankar shared his experiences of teaching prison inmates and highlighted the positive impact that time spent in prison can have on their behavior. He emphasized that even highly educated individuals can become criminals if they lack emotional intelligence. Prof. Haldankar underscored the importance of self-development activities such as exercise, meditation, and yoga in building self-confidence and combating depression.
- Further contributing to the session, Prof. Biradar shared his perspective on education. He defined education as the control of one's own mind and its ability to focus. This insight prompted the students to reconsider their understanding of education and its broader implications.

The session left the students in deep contemplation, offering renewed clarity regarding the purpose of the NSS Camp. It sparked thoughts on social responsibility, the need for balanced technology integration, the significance of fair trade practices, and the importance of emotional intelligence and self-development. The students gained a deeper understanding of their role in society and their potential to make a positive impact.

After the insightful session, the students engaged in cultural activities that added a touch of joy and entertainment to the camp. They participated in a lively game of Musical Chairs, filled with laughter and friendly competition. The game brought out the spirit of camaraderie among the students as they danced around the chairs, vying for a seat when the music stopped. Following the game, the students showcased their talent and enthusiasm in a group dance performance. With coordinated moves and infectious energy, they mesmerized everyone with their synchronized steps and vibrant expressions. The dance filled the campsite with infectious joy and created a lively atmosphere.

As the evening progressed, the students were treated to a delicious dinner at 9:00 pm. The dinner provided a moment of relaxation and nourishment after an eventful day, allowing the students to recharge and bond over a shared meal. As the night settled in, the students retired to their sleeping arrangements on the beachside campsite, eagerly anticipating the adventures that awaited them on the third day of the camp. The beachside campsite remained peaceful throughout the night, preparing to welcome a fresh day filled with new adventures, discoveries, and memorable moments.

Sehandhary

NSS CAMP DAY-3 NSS CAMP DAY-1 29/05/2023

On the third day of the NSS Camp, the students woke up at 6:00 am. Despite the early hour, a sense of anticipation and energy filled the air as they eagerly prepared for the day ahead. As the sun began to peek over the horizon, casting a warm golden glow across the landscape, the students made their way to the beach for their morning jog at 6:30 am. This was followed by a yoga (Exercise) session on the beach led by Prof. Biradar. The combination of jogging on the beach and the playful yoga session had invigorated both their bodies and spirits. The students felt a renewed sense of vitality and connection with themselves and each other. They knew that this day at the NSS Camp had brought them closer together, creating memories that would last a lifetime.

After the invigorating jogging and playful yoga session, the students returned to their accommodations to freshen up and get ready for the day ahead. The shared excitement and newfound energy lingered in the air as they prepared themselves for the next part of their NSS Camp experience. By 8:30 am, the students had gathered in the dining area, ready to fuel their bodies with a delicious and nourishing breakfast. Amidst the conversations, the students also discussed their plans for the day. They eagerly anticipated the activities and projects lined up for them, each looking forward to making a positive impact through their service and engagement.

After a hearty breakfast, the students embarked on their next mission for the day - visiting Jambugao village in Dahanu to continue their survey on electricity needs and consumption. Equipped with notepads, pens, and a genuine curiosity to understand the villagers' perspectives, they set off with a sense of purpose and determination. As they arrived at the village, they were greeted by Mr. Mahesh Kotari, a dedicated gram panchayat sevak of Jambugao. With his deep knowledge of the village and its residents, he would serve as their guide throughout the survey. Together, they embarked on their journey through the village, visiting each household and engaging in meaningful conversations with the villagers. The

students approached each encounter with respect, humility, and a genuine desire to learn from the community members. They asked questions about the electricity needs and consumption patterns of the villagers, taking notes and capturing valuable data. The villagers warmly welcomed them into their homes, sharing their personal stories and experiences. The students listened attentively, gaining insights into the challenges faced by the community and the impact of electricity availability on their daily lives. As the survey progressed, the students became more than just data collectors. They formed connections with the villagers, fostering a sense of empathy and understanding. The conversations transcended mere statistics and turned into shared experiences, bridging the gap between the students and the villagers, creating a bond of mutual respect and appreciation. As the students bid farewell to the villagers of Jambugao, they left with a deeper understanding of the realities faced by rural communities. They felt a renewed sense of responsibility to advocate for equitable access to electricity and to work towards sustainable solutions. The conversations and connections made in Jambugao would remain etched in their memories, fueling their commitment to making a positive impact in the lives of those they encountered.

After an eventful and enlightening visit to Jambugao village, the students of the NSS Camp returned to their campsite, feeling a mix of excitement and anticipation. Hunger gnawed at their stomachs as they made their way back, eagerly looking forward to a satisfying lunch. Amidst the enjoyment of the meal, the students also took the time to appreciate the efforts of the campsite staff. They recognized the dedication and hard work put into preparing and serving such a delicious spread, ensuring that everyone's hunger was satisfied.

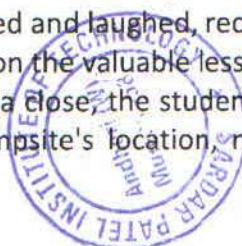

Shandhai

Excitement filled the air as the students of the NSS Camp arrived at the Krishi Vigyaan Kendra (KVK) near Bordi. They were greeted by Mrs. Anjali Dwite, their knowledgeable guide, who would enlighten them about the research process involved in selecting the best crop and cultivation methods. The students eagerly listened as she began explaining the steps of this crucial agricultural process. With Mrs. Dwite's guidance, the students delved into the world of agricultural research. They learned about the significance of considering factors such as climate, soil conditions, and market demand when choosing a crop to cultivate. Mrs. Dwite stressed the importance of conducting thorough research to make informed decisions and maximize agricultural productivity. To illustrate the application of research in farming practices, Mrs. Dwite then demonstrated a rice planting machine. The students gathered around, their eyes widening with amazement as they witnessed the efficiency of this technology. The machine swiftly and accurately planted rows of rice seedlings, showcasing how innovation can revolutionize traditional farming methods. Eager to expand their knowledge further, Mrs. Dwite proceeded to introduce the students to the concept of grafting. Through a live demonstration, she showcased how this technique could combine desirable traits from different plant varieties, creating new and improved crops. The students watched attentively, captivated by the potential for enhancing agricultural productivity through such methods. Amidst the students' engrossment in the KVK activities, their excitement reached new heights as their Principal, Dr. B.N. Chaudhary, arrived at the KVK, he was accompanied by Prof. Rupali. Warm smiles and greetings were exchanged as the students welcomed him to the camp. Dr. Chaudhary's presence added an extra layer of enthusiasm and inspiration to the day's activities. Together, Mrs. Dwite, Dr. B.N Chaudhary, and the students explored the various sections of the KVK. They visited the beehive nursery, marveling at the intricate relationship between bees and plants. Dr. B. N Chaudhary shared anecdotes and insights from his own experiences in agriculture, further inspiring the students' passion for sustainable farming practices.

As the students bid farewell to the Krishi Vigyaan Kendra (KVK), their minds brimming with newfound knowledge and inspiration, they made their way back to the campsite. The journey was filled with animated conversations and laughter, as they excitedly shared their experiences and discussed the highlights of their visit. Sipping on their tea, the students reveled in the warmth and comfort it provided, grateful for this moment of respite amidst their busy day. They chatted and laughed, recounting the memorable moments from the visit to the KVK and reflecting on the valuable lessons they had learned.

As the tea break came to a close, the students found themselves rejuvenated and ready for more adventure. The campsite's location, nestled near the beach, presented the perfect

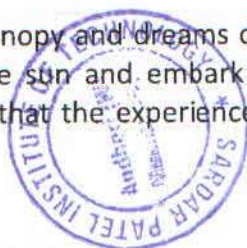

opportunity for them to unwind and have some fun.

The event in the quadrangle of the campsite continued to unfold, leaving the students inspired and eager to embrace the next phase of their NSS Camp journey. As the speeches by Police Inspector Mr. X on cybercrime and DIG Mr. Y on UPSC came to a close, the students eagerly awaited the final address of the evening.

Their beloved Principal, Dr. B.N. Chaudhary, took the stage with an air of wisdom and compassion. He acknowledged the valuable insights shared by the previous speakers and commended the students for their active participation and enthusiasm throughout the camp. Principal Sir emphasized the importance of the knowledge gained and encouraged the students to apply it not only in their academic pursuits but also in their personal lives. He spoke about the power of education to bring about positive change and the responsibility they held as future leaders of society. His words resonated deeply with the students, reaffirming their commitment to making a difference. As the event concluded, the students made their way to the dining area, their appetites piqued after an evening of engaging talks. They were welcomed with a delicious spread, with the highlight being bowls of luscious aamras, a sweet mango puree that is synonymous with the joy of summer. The students eagerly savoured this seasonal delight, indulging in its rich and refreshing flavors. Laughter and conversations filled the air as they bonded over the shared experience of a delicious meal. With satisfied appetites and a sense of contentment, the students gradually made their way to their respective rooms. Aware of the busy day that awaited them, they understood the importance of a good night's sleep and the need to recharge for the adventures that lay ahead. By 10:30 PM, the campsite was enveloped in a peaceful silence as the students settled into their sleeping bags, their minds filled with anticipation for the next day's activities.

With the night sky as their canopy and dreams of possibilities in their hearts, the students rested, ready to rise with the sun and embark on another day of learning, service, and personal growth. They knew that the experiences and knowledge gained during their NSS

Camp would stay with them long after the camp concluded, shaping their outlook on life, and fuelling their passion for making a difference.

NSS CAMP DAY-4

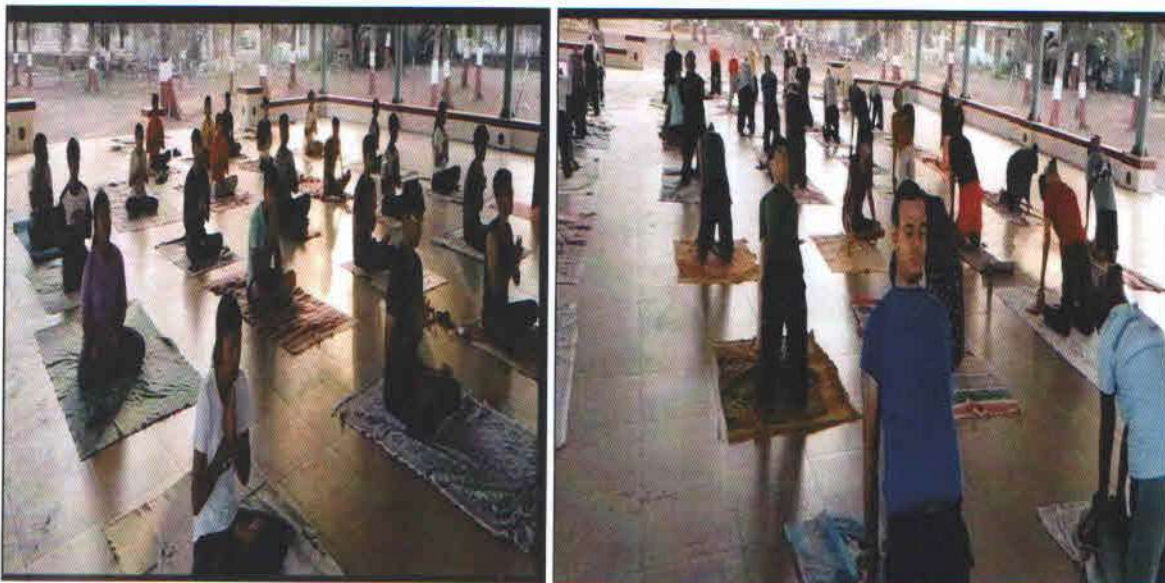

As the sun began to rise, casting its gentle golden rays over the campsite, the students stirred from their slumber, their bodies rejuvenated and minds refreshed. It was the fourth and final day of the NSS Camp, a bittersweet realization that hung in the air. At 6:00 am, the students rose from their beds, embracing the promise of a new day. With a renewed sense of purpose, they made their way to the quadrangle, where Prof. Biradar, their dedicated yoga instructor, awaited them. The open space was filled with a sense of calm and tranquillity, providing the perfect environment for the students to connect with their bodies and minds.

With Prof. Biradar's gentle guidance, the students embarked on a yoga session that rejuvenated their spirits and invigorated their bodies. They flowed through various asanas, focusing on their breath and finding balance within themselves. The rhythmic movements and peaceful atmosphere set the tone for a harmonious start to the day. After the yoga session, the students returned to their tents to freshen up and prepare for the day ahead. With renewed energy coursing through their veins, they eagerly gathered at the dining area for a hearty breakfast. The aroma of freshly prepared food greeted them, filling the air with an appetizing allure. The students indulged in a nourishing meal, fueling their bodies for the activities that awaited them.

Sehanshaji

The students embarked on a visit to Bordi village to conduct a survey on electrical appliances and consumption. With their survey tools in hand, they engaged in fruitful interactions with the villagers, aiming to gain insights and knowledge on their electrical practices. The villagers graciously shared their experiences and perspectives, enriching the students' understanding of the subject matter.

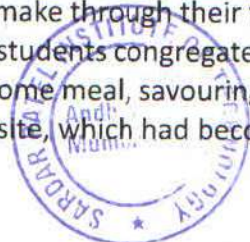

Upon concluding the survey, the students returned to the campsite, where an interactive session in the quadrangle with Principal Sir awaited them. This session provided an invaluable opportunity for the students to articulate their experiences, realizations, and feedback, fostering a sense of unity and introspection among them.

Eager to contribute to the dialogue, each student eloquently recounted their encounters with the villagers, sharing engaging anecdotes that underscored the diverse range of perspectives they had encountered. Their appreciation for the opportunity to engage directly with the community was palpable, as they acknowledged the significance of grassroots interactions in comprehending societal needs. The interactive session functioned as a platform for collective learning, enabling the students to absorb the varied insights shared by their peers.

Principal Sir attentively listened to their narratives, his countenance reflecting pride in his students' unwavering dedication and enthusiasm. In his address, he emphasized the profound impact of their efforts and their potential to drive social reform through the prudent use of technology. By recognizing the significance of understanding a community's needs, Principal Sir underscored the pivotal role technology plays in fostering sustainable development.

Principal Sir's remarks resonated deeply with the students, who were inspired by the potential of technology as a catalyst for positive change. They understood that their responsibilities extended beyond mere survey conduct; they possessed the power to harness technology to effect meaningful transformations in the lives of others. Reinvigorated and invigorated by Principal Sir's words, the students embraced a renewed sense of purpose as they contemplated the impact they could make through their future endeavours.

Following the interactive session, the students congregated once more for a wholesome lunch at 2:30 pm. They relished the flavourous meal, savouring each bite while treasuring the final moments spent together in the campsite, which had become a temporary home for them.

Sehansh

After the meal, the students meticulously packed their belongings, their possessions imbued with cherished memories and the spirit of service. With gratitude in their hearts for the experiences, friendships, and insights gained during the NSS Camp, they bid farewell to the campsite. Emotions ran high as they proceeded to Gholvad station, embarking on their journey back to Mumbai.

As they boarded the train, a profound sense of fulfilment enveloped the students, aware that their interactions had positively impacted the lives of the villagers. They also carried with them invaluable lessons learned, connections forged, and memories indelibly etched in their hearts. The return journey was marked by reflection and anticipation for the future. The students harboured immense gratitude towards the NSS Camp and the myriad opportunities it had presented. They recognized that the lessons learned and experiences gained would continue to shape their individual paths, as they committed themselves to effecting positive change in their respective communities and beyond.

With hearts brimming with gratitude and minds abuzz with the possibilities that lay ahead, the students bid farewell to the picturesque countryside, setting their sights on the bustling city of Mumbai. While the NSS Camp had drawn to a close, its impact would endure, guiding the students as they charted their courses, armed with renewed purpose and an unwavering dedication to service.

Activity Name: Volunteering at the center in Malad (w) , Strategic management, community support, etc organized by HWCT India Foundation -Human Welfare Charitable Trust

Academic Year : 2022-23

Internship Period: July 2 - July 14, 2023

About HWCT India Foundation

HWCT India Foundation (Human Welfare Charitable Trust) is a Public Charitable Trust, Non-Profit, Charitable Organization, established in 2014 with the primary goal of reaching out to support the weaker economic sections of society. The foundation undertakes a variety of projects to serve underprivileged communities and promote social welfare.

Introduction

This report summarizes the internship experience at Human Welfare Charitable Trust from July 2 to July 14, 2023. During this period, interns worked on a variety of projects, contributing to the foundation's mission in different ways. The following sections detail the tasks undertaken and the outcomes achieved during the internship.

Internship Duties and Accomplishments

Interns were involved in several activities that supported the foundation's objectives. Here is a summary of the key tasks and their respective outcomes:

1. Helping a Student with Learning Disabilities Write His Exams

Interns assisted a student with a learning disability in writing his B.Sc. IT 6th semester exams. This task required spending 4 hours each day with the student, helping him read and understand the material, and then writing his exam answers. The student successfully passed his exams with a good grade, demonstrating the effectiveness of the support provided.

2. Arranging Books at the Center's Library

The library at the center needed organization and cataloging. Interns sorted the books by subject and author and created a new system for cataloging, which made it easier for students to find the resources they needed. This task helped improve the library's functionality and accessibility.

3. Organizing a Donation Drive Using Social Media Marketing

Interns organized a donation drive for the center using social media platforms like Twitter and Instagram. The campaign also involved reaching out to influencers to spread the word. This effort resulted in a significant collection of donations, which will support the center's ongoing activities and services for students.

4. Cleaning and Maintaining the Cleanliness of the Center's Surroundings

Interns contributed to the cleanliness and maintenance of the center's surroundings. This involved sweeping and mopping floors, taking out trash, and assisting with gardening tasks such as planting flowers and trees. These activities helped create a pleasant environment for the center's users.

Skills Learned

Through their internship experience, participants gained valuable skills and insights. These included:

- **Working with Students with Learning Disabilities:** Interns learned effective communication and teaching strategies to support students with special needs.
- **Organizing and Managing a Donation Drive:** They gained experience in coordinating and executing a successful donation drive, leveraging social media marketing.
- **Using Social Media Marketing for Fundraising and Awareness:** Interns learned how to create engaging content and use social media platforms to raise awareness and collect funds.
- **Facility Cleaning and Maintenance:** Interns acquired skills in maintaining a clean and organized facility, contributing to the center's overall environment.

Conclusion

The internship at Human Welfare Charitable Trust provided valuable experience and allowed interns to contribute meaningfully to the foundation's mission. The combination of supporting students with learning disabilities, organizing donation drives, and maintaining the center's cleanliness demonstrated the interns' versatility and commitment to helping others.

The skills learned during this internship will benefit interns in their future endeavors, whether in similar roles or broader community-focused activities. This internship is highly recommended for individuals interested in social welfare and charitable work.

Mon, Jul 10, 2023 at 2:00 PM

Good morning ma'am

My name is Nathaniel Fernandes I am a student of Mumbai University IDOL BSE IT Third year.

I am a Learning Disabled student who needs a writer. Rohan Dudhal Roll No 2021200029 a student from the second year of Electronics and Telecommunication has decided to help me by being my writer.

I need confirmation and NOC from Sardar Patel Institute of Technology that Rohan Dudhal is a student of your college.

I have attached Rohan's ID card for official confirmation purposes

"Golden Jubilee Year 2020-2021"

My Activities

2) Books Arrangement at the Centre

I actively contributed to organizing and arranging books at the center. This involved categorizing and cataloging books, ensuring they were appropriately shelved, and maintaining a well-organized library system. By implementing efficient book management practices, I aimed to facilitate easy access to educational resources for both students and staff..

My Activities

3) Donation Drive using Social Media Marketing

To support the NGO's ongoing efforts, I utilized social media marketing techniques to raise awareness and drive donations. I formulated and implemented strategies to engage with potential donors and foster a sense of community. Moreover, I collaborated with influencers on various social media platforms to amplify the reach of our campaigns, effectively conveying our message to a wider audience.

My Activities

4) Cleaning and Maintaining Cleanliness

Recognizing the importance of maintaining a clean and hygienic environment, I actively participated in cleaning and maintaining the cleanliness of the center's surroundings. This included tasks such as sweeping, mopping, and ensuring proper waste management. By promoting cleanliness, I aimed to create a conducive learning and working environment for students, staff, and visitors.

CERTIFICATE

This is to certify that Mr. Rohan Dudhal has successfully completed an internship with Human Welfare Charitable Trust, from 2nd July 2023 to 14th July 2023. He worked as a Volunteer and completed 35 hours of his internship.

He demonstrated a strong understanding of the issues pertaining to Disabled Students and was able to contribute meaningfully to the work of the NGO. He was also a team player and was able to work well with others.

We believe that this internship has been a valuable learning experience for Rohan and has helped him to develop his skills. We wish him all the best for his future endeavors.

Warm Regards,

For HUMAN WELFARE CHARITABLE TRUST

Activity Name: Tree plantation, Cleanliness campaign and other social welfare activities

organized by Rotaract club

Academic Year : 2022-23

Following activities are done under Rotaract Club

Ngo Seva Satva Details: -

Day 1- 08/06/23 Beach cleaning (Juhu beach)- 4 hours

Day 2- 09/06/23 Beach cleaning (Juhu beach)- 4 hours

Day 3- 10/06/23 Plantation (National Park)- 4 hours

Day 4- 11/06/23 Beach cleaning (Juhu beach)- 4 hours

Day 5- 16/06/23 Beach cleaning (Juhu beach)- 4 hours

Day 6- 17/06/23 Old Age Home - 4 hours

Day 7- 23/06/23 Plantation (National Park)- 4 hours

Day 8- 24/06/23 Yoga (Online)- 2 hours

Online Yoga: -

Activity: Beach Cleaning

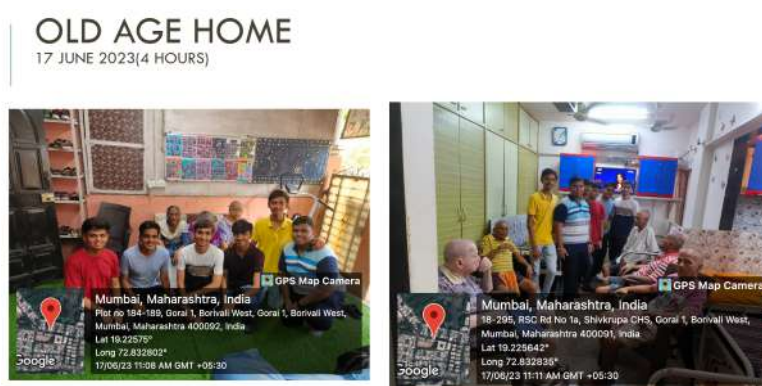

During a beach cleaning activity, we had the opportunity to contribute to the preservation of our coastal environment. With a shared passion for environmental conservation, our small group of volunteers dedicated a day to removing litter and debris from a local beach. Equipped with gloves, trash bags, and a strong sense of purpose, we worked diligently, combing the shoreline and collecting everything from plastic bottles to abandoned fishing gear. Witnessing the transformation of the beach from a littered space to a pristine environment was truly rewarding. This experience not only reinforced the importance of

responsible waste management but also highlighted the significance of community involvement in maintaining the beauty and health of our natural spaces. Together we developed a deeper appreciation for the fragile ecosystems that depend on clean coastlines and a renewed commitment to environmental activism

Activity: Tree Plantation

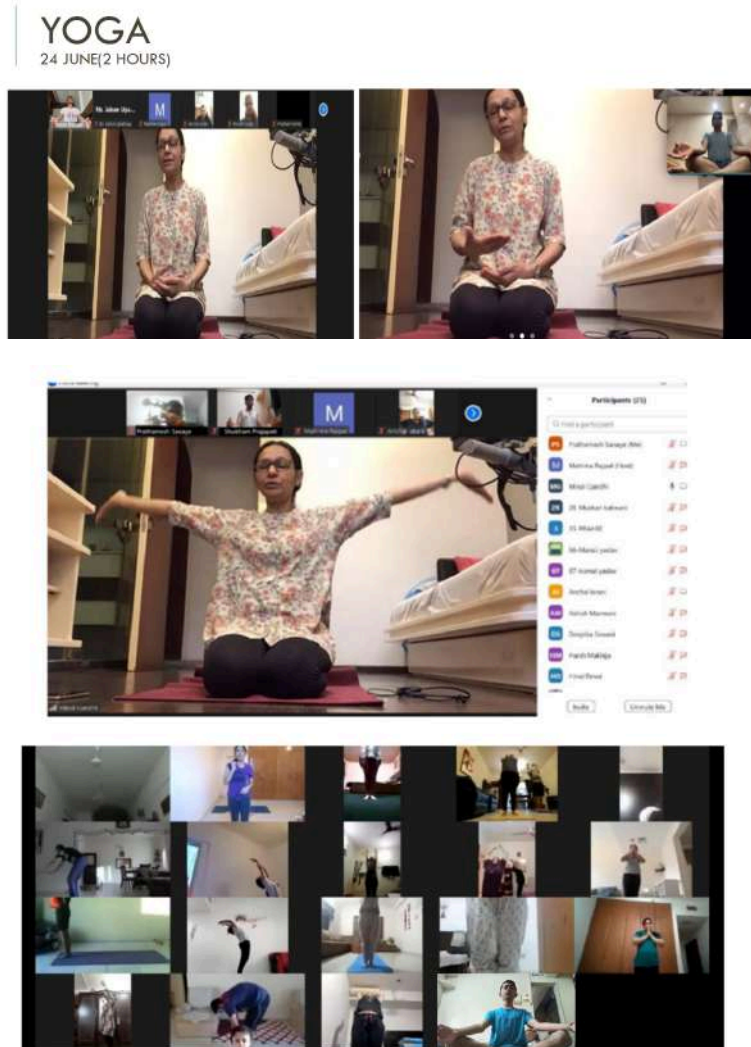

During a tree plantation initiative at a national park, we had the privilege of contributing to the preservation and restoration of our natural heritage. Motivated by our shared love for the environment, we organized a tree planting event to enhance the biodiversity and sustainability of the park. Armed with shovels, saplings, and a deep sense of responsibility, we set out to create a greener and healthier ecosystem. Working in collaboration with park authorities, we carefully selected native tree species that would thrive in the park's unique environment. As we dug holes and planted the young saplings, we were filled with a profound sense of purpose and hope for the future. Witnessing the transformation of barren areas into lush green spaces was a testament to the power of collective action and environmental stewardship. This experience taught us the importance of reforestation in mitigating climate change, promoting wildlife habitats, and preserving the natural beauty of our national parks. It reinforced our commitment to advocating for sustainable practices and inspired us to continue working towards a greener and more sustainable future for our planet.

Activity : Seva at Old Age Home

During our visit and four-hour stay at an old age home, we had the humbling opportunity to connect with and bring joy to the elderly residents. With a genuine desire to make a positive impact, we organized this visit to spend quality time with the residents, listen to their stories, and offer companionship. Upon arrival, we were greeted with warm smiles and open arms, instantly creating an atmosphere of friendship and understanding. Engaging in conversations and sharing heartfelt moments, we learned about their rich life

experiences and cherished memories. Through activities such as playing games, singing songs, and simply offering a listening ear, we aimed to alleviate their loneliness and create an environment of care and compassion. Witnessing the joy and gratitude on their faces was incredibly rewarding, reminding us of the profound value of human connection. This experience not only deepened our empathy and understanding of the challenges faced by the elderly but also instilled in us a greater appreciation for the wisdom and resilience that comes with age. Our visit to the old age home left a lasting impression on our hearts, motivating us to continue advocating for the well-being and dignity of our senior citizens in our community.

Activity: Online Yoga

On the occasion of Yoga Day, we organized a virtual yoga meet that brought together individuals to celebrate the holistic practice of yoga. Through the power of technology, we created a platform where participants could connect, learn, and engage in a collective yoga experience. Guided by experienced instructors, we embarked on a journey of mindfulness, physical well-being, and inner peace. As we joined together in various yoga poses and breathing exercises, the virtual space was filled with positive energy and a sense of unity. The online format allowed us to transcend geographical boundaries and share our love for yoga with a diverse community. The event not only deepened our personal practice but also fostered a sense of global togetherness and appreciation for the transformative benefits of yoga. It served as a reminder of the importance of self-care, mental wellness, and the profound impact that yoga can have on our overall well-being. Our online yoga meet was a testament to the power of technology in connecting people and spreading positivity, reaffirming our commitment to making yoga an integral part of our lives.

Activity Name: Rescue and treatment of injured animals and birds , awareness Campaign volunteering organized by Jivdaya Abhiyan Malad Foundation

Academic Year : 2022-23

Internship Period: January 29 - March 30, 2023

Introduction

Jivdaya Abhiyan Malad Foundation is a non-profit organization dedicated to the rescue and care of injured animals and the promotion of animal welfare awareness. Operating in Malad, a busy suburb of Mumbai, the foundation relies on a network of dedicated volunteers, veterinarians, and supporters to achieve its mission.

This report summarizes the internship experience at Jivdaya Abhiyan Malad Foundation, detailing the various departments and activities in which interns participated. The internship took place from January 29 to March 30, 2023, and provided a broad range of experiences in animal rescue, first aid, public awareness campaigns, and social media engagement.

Internship Activities

Interns at Jivdaya Abhiyan Malad Foundation engaged in a variety of tasks, including:

- **Rescuing Injured Animals and Birds:** Interns joined a team to respond to calls for animal rescue, focusing on those injured in road accidents or by insect bites. The rescue efforts typically occurred twice a week for about three hours.
- **Administering First Aid:** After rescuing animals, interns assisted senior team members with first aid for the injured. This included treating birds harmed by nylon manja (kite strings) during the Makar Sankranti festival from late January to early February.
- **Transporting Animals to Veterinary Clinics:** Interns helped transport injured animals to veterinary clinics for further treatment. This required coordinating with team members and sometimes driving the animals to the clinics.
- **Feeding Stray Animals:** Interns participated in a weekly feeding program for stray animals, ensuring that they received adequate food during the interval from March 8 to March 30.
- **Volunteering in Awareness Campaigns:** Interns helped organize and run awareness campaigns in schools. These campaigns aimed to educate the public about animal rights, responsible pet ownership, and the importance of sterilization. Interns also played a role in collecting funds for the foundation.
- **Constructing Bird Shelters and Arranging Food and Water:** After animals and birds were treated, interns assisted in building shelters and arranging food and water for them. Fully recovered animals were sent to an animal sanctuary, while birds were provided with birdhouses.

- **Social Media Engagement:** An intern suggested creating a social media presence for the foundation. This led to the establishment of the foundation's Instagram account, where interns contributed content to raise awareness about the NGO's activities.

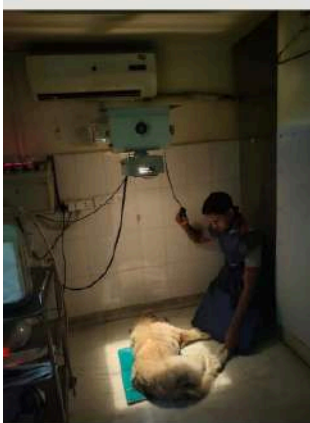

Skills Learned

During the internship, participants gained a range of skills and values, including:

1. **First Aid for Animals and Birds**
2. **Fundraising for the NGO**
3. **Social Media Marketing to Raise Awareness**
4. **Developing Kindness Toward Animals**
5. **Team Coordination and Collaboration**

- RESCUING THE INJURED ANIMALS AND BIRDS
- GIVING FIRST AID TO THE INJURED ANIMALS AND BIRDS
- DRIVING THEM TO THE VETERINARY DOCTORS
- FEEDING THE STRAY ANIMALS
- VOLUNTEERED AWARENESS CAMPAIGNS IN SCHOOLS
- MAKING SHELTERS FOR TREATED BIRDS AND MAKING ARRANGEMENTS FOR THEIR FOOD AND WATER
- MADE SOCIAL MEDIA PLATFORM TO SPREAD AWARENESS BY THE NGO

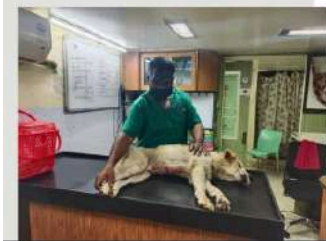

RESCUE AND TREATMENT

I WORKED IN A GROUP OF 3 MEMBERS TO RESCUE THE INJURED ANIMALS IN ROAD ACCIDENTS AND SOME ANIMALS WHICH WERE INJURED DUE TO ANY CUT OR INSECT BITES WHICH CAUSED WOUNDS.

AFTER WE RESCUED THE ANIMALS AND BIRDS , WE HEADED TOWARDS THE LOCATIONS AND THE SENIOR MEMBERS OF THE GROUP DID FIRST AID FOR THE INJURED BIRDS OR ANIMALS. I ASSISTED THEM AND HELPED THEM IN ALL WHAT THEY REQUIRE.

AT TIMES, I DROVE THE INJURED BIRD WITH MY TEAM MEMBER YASH TO DR. PETHE'S VETERINARY CLINIC IN MY CAR

BEFORE AND AFTER PICTURE OF THE TREATED DOG (THE BROWN ONE)

MAKING SHELTERS FOR TREATED BIRDS

AFTER THE BIRDS AND ANIMALS ARE TREATED, DEPENDING UPON THEIR HEALTH, WE PROVIDED THE PET HOMES. BIRDS HAVE BEEN MADE A BIRD HOUSE WHERE I HELPED IN PAINTING IT AND ARRANGING FOOD AND WATER IN THE BIRD HOME.

AWARENESS CAMPAIGN

WE HELD AN AWARENESS CAMPAIGN IN SCHOOLS, WHERE I VOLUNTEERED IN THE TEAM AND HELPED SHARING THE CONTACTS AND COLLECTING FUNDS. THESE PROGRAMS FOCUS ON EDUCATING INDIVIDUALS ABOUT ANIMAL RIGHTS, RESPONSIBLE PET OWNERSHIP, THE IMPORTANCE OF STERILIZATION, AND THE HUMANE TREATMENT OF ANIMALS. THESE AWARENESS PROGRAMS HAVE HAD A SIGNIFICANT IMPACT, AS THEY HAVE LED TO INCREASED PARTICIPATION FROM THE COMMUNITY, BETTER REPORTING OF ANIMAL DISTRESS CASES, AND IMPROVED TREATMENT OUTCOMES.

Work done by Students:

Sr No.	Date	Work done	Address	Hours
1	29-Jan	Helped in bird rescue	Poisar village	3 hours
2	1-Feb	rescued and treated a dog and admitted	Malad east subway	4 hours
3	2-Feb	Surgery of dog	pethe's clinic borivali west	3 hours
4	4-Feb	Awareness Campaign conducted	Our lady of remedy school Painsur	6 hours
5	19-Feb	Bird home painting and arranging food and water access	Jitendra road ,malad east	2.5 hours
6	8-Mar	Surgery of dog	pethe's clinic borivali west	3 hours
6	11-Mar	Feeding the dogs	Kandivali west and malad west	1.5 hour
	17-Mar			1.5 hour
	25-Mar			1.5 hour
	30-Mar			1.5 hour
7	26-Mar	Content making and reel editing	jivdaya abhiyan foundation	3 hours
	11 days			30.5 hours

Activity Name: Tree plantation, Cleanliness campaign and other social welfare activities

organized by Rotaract club

Academic Year : 2022-23

Date: June 5, 2023 – 13th June 2023

Introduction

Gauri Narkar, a student from Sardar Patel Institute of Technology, pursued an internship at NASEOH (National Society for Equal Opportunities for the Handicapped, India) in Chembur, Mumbai. NASEOH is a non-profit organization focused on empowering individuals with disabilities through vocational training, education, and employment support. This report summarizes Gauri's volunteering activities and her contributions to the organization.

World Environment Day Celebration

The internship began on June 5, 2023, with a World Environment Day event, where NASEOH collaborated with several prominent organizations, including Tata Powers, Tata International, Air India, Tata Projects Community Development Trust, Bombay National History Society, and Nursery on Wheels. The event comprised a tree plantation drive and a plastic waste collection campaign. The primary goal was to raise environmental awareness and encourage active participation in protecting Planet Earth. Gauri actively participated in this event and gained insights into the importance of community-driven environmental initiatives.

Our NGO (NASEOH) organised a small event (Tree Plantation and and Plastic Waste Collection Drive) with Tata Powers, Tata International, Air India, Tata Projects community development Trust, Bombay National History Society and Nursery on Wheels.

Teaching and Data Entry Assistance

Following the World Environment Day event, Gauri was assigned to the Placement and Data Entry Department, where she worked with students with intellectual and physical disabilities. Her responsibilities included teaching and assisting them in basic Microsoft Excel operations, such as creating tables, calculating interest, and handling various data-related tasks.

Gauri also contributed by collecting contact information for job vacancies in various companies, focusing on opportunities suitable for individuals with intellectual and physical disabilities. This information would be crucial for the upcoming job fair at NASEOH, facilitating job placement for the organization's beneficiaries.

Teaching MS-Excel operations and solved few assignment questions with the students of data entry operations. Also, worked in the placement office to write a report on World Environment Day 2023.

Solved Questions of MS-Excel (Conditional Formatting) and solved sums on addition, subtraction, multiplication.

Pay Roll				
Pay Roll No.	Name	Salary Rs.	Part Time Rs.	Arrears Rs.
1011	Prasanna	12000	900	3000
1012	Aritha	14000	600	1800
1013	Ravi	18000	700	1700
1014	Saritha	15000	600	1400
1015	Malika	17000	500	1800

Other Activities and Experiences

In addition to her work in the Placement and Data Entry Department, Gauri visited other departments within NASEOH, including:

- **Computer Operating Unit:** She observed how students learned basic computer skills to enhance their employability.
- **Tailoring and Bakery Departments:** Gauri witnessed how individuals with disabilities were trained in practical skills, promoting their independence.
- **Wheelchair Making, Physiotherapy, and Speech Therapy:** These departments provided essential services and equipment to individuals with disabilities, contributing to their overall well-being.
- **Art and Craft Department:** Gauri was impressed by the creativity and talent displayed in this department, showcasing beautiful paintings and drawings made by individuals with special needs.

Helped in form filling of a student (Recruitment form) and teaching basic chart operations on Excel to the students of data entry department.

Key Learnings and Personal Growth

During her time at NASEOH, Gauri gained valuable insights and developed essential skills. She learned the importance of patience and the need to approach each task with care and dedication. The experience of interacting with individuals with special needs taught her to approach life with a more positive and optimistic attitude. Additionally, Gauri realized the significance of giving people with disabilities the support they need to achieve their goals and lead fulfilling lives.

Conclusion

Gauri's volunteering experience at NASEOH was transformative, allowing her to contribute meaningfully to an organization dedicated to supporting individuals with disabilities. Through her teaching, data entry assistance, and participation in various departments, Gauri demonstrated a commitment to the values of NASEOH and the well-being of those it serves. Her experience at NASEOH emphasizes the importance of inclusion, patience, and the positive impact that volunteers can have on an organization's mission.

E mail: principal@spit.ac.in Website: www.spit.ac.in

Activity Name: Tree Plantations, Seeding organized by Arranya Environmental Foundation

Academic Year : 2022-23

About Arranya Environmental Organization:

Arranya Environmental Organization is a youth-driven organization dedicated to conserving the environment. Their mission includes various initiatives to protect nature and promote sustainability. With a focus on increasing the green cover, waste, water management, and overall environmental conservation, Arranya aims to address the alarming environmental issues our planet faces. The organization is committed to raising awareness about the importance of preserving nature and the detrimental effects of human activities on the environment. They believe that humans have played a significant role in harming wildlife and themselves, and it is crucial to take action to reverse this trend. Their motto is 'Vasudhaiva Kutumbakam.' It is a Sanskrit expression which means, the world is one family. In 2011, they were the first to introduce natural herbal colors as a substitute for chemical colors in the city of Nagpur. They were the first NGO in the region of Vidarbha to open a library namely 'Arranya Paryavaran Granthalaya', solely dedicated to books on the environment.

Major Activities of the Internship Program: The Six Ship Program offered by Arranya provides various opportunities for individuals to get involved and make a positive impact. This includes volunteering for short-term community projects, becoming a member of the organization, receiving mentorship from experienced individuals, participating in internships for professional development, and engaging in fellowship programs for community outreach. Additionally, Arranya welcomes partnerships with universities, corporations, and government entities to collaborate on joint ventures and enhance brand values. Overall, the Six Ship Program offers a diverse range of options for individuals to contribute and gain valuable experiences. I choose Internship Program as a contributing factor.

Seva Prkalp: In this module, students had to visit and work with other NGOs for a day. So they visited "Go-Vigyan Anusandhan Kendra" which is located in Deolapar, Nagpur. They perform traditional and aesthetic farming practices. Organization also arrange free workshops for everyone where they teach students about these practices. They provide free food and free rooms for students as well. As a volunteer students also attended the workshop, they taught us about Friendly insects, trap crops for pollination, Natural fencing, and many more things. They believe in the conservation of Ancient Indian farming techniques which includes only Indian Crops and Cows. In their opinion, foreign (Advanced) techniques are not good for the productivity and fertility of the soil. They also make Ayurvedic medicines and they have managed to cure almost all diseases only from "gomutra" and herbs without adding any chemicals. For this reason, they were awarded and appreciated my time. They also make personal care products like soap and body oil. Their products are always in high demand not only from India but also from other countries because of their quality, effectiveness, and low price.

Later students visited their Goshala (Cow Ranch) where they keep their cows safe. They also rescue the cows which were kidnapped for the slaughterhouse. They also have a breeding 3 partition for breeding various species of cows. All the workers at the farm do the pooja of cow dung as a morning ritual. They sell the milk straight from the milking process (by using their hands) without any unethical tricks. They produce Bio Gas from cow dung and slurry which is left out from the tank is further processed to convert it to Natural Fertilizers.

Cleanliness Activities: In this module, students had to perform a Cleanliness activity like cleaning a place. So they visited Z.P. Prathamik Shala which is located in Dahegoan, Nagpur. It is a small school as it is placed in a small village surrounded by wild animals.

Before

After

Some sample feedback and work from students:

Student name: **MRUNANK WARKHADE**

EcoPark Survey: In this module, I had to do a survey on a nearby eco-park. So I thought Shri Sant Dnyaneshwar Garden would be a great spot. It is located in Dattatray Nagar, Nagpur. It has 5-6 arcs of land with 695m of joggers path which is quite amazing. The park has various species of plants like Bougainvillea, Bracham Trees, Gular Trees, Green Covers, etc. The nearby society is good, there are many healthy street food stalls outside the park itself. I asked people some questions (regarding their experience in the park) to get more accurate answers. Most of the people come here because it's the only park near them and also greenery. The people who come are mostly above 40 (age). The park is clean and secure with the guard's surveillance. The park has 3-4 sheds for yoga and programs and also provides a green gym. But this park lags in maintaining the pieces of equipment (including playable parks for kids) and washrooms, from 2 years it is still pending. The average rating of this park would be 6 out of 10.

6 Blog Writing In this module, I had to write a Blog on a favorable Topic related to the current environmental situation/problem. My blog titled "Benefits of Planting a Sapling" emphasizes the numerous advantages of planting saplings for the natural regeneration of forests and the promotion of biodiversity. Saplings can be easily planted in various locations, supporting wildlife and creating new habitats for birds and animals. Additionally, planting saplings is a cost-effective and accessible way to contribute to conservation efforts. My blog highlights the simplicity of planting and caring for saplings, requiring minimal equipment and effort. Overall, planting saplings is an excellent way to foster sustainable ecosystems and enjoy the benefits of nature.

Infographics: In this module, I had to design a infographic on 'Green Cover vs Ecological Values', green cover refers to the extent of vegetation, such as trees, plants, and grass, covering an area. It plays a vital role in maintaining clean air, preventing soil erosion, and providing habitats for animals. On the other hand, ecological value goes beyond the physical presence of vegetation and focuses on the overall importance and health of an ecosystem. It considers the interactions, biodiversity, and functions within an ecosystem, highlighting the significance of preserving nature for its intrinsic worth and the services it provides. Green cover is like a green blanket over the land, while ecological value is about how special and important a place in nature is, with different plants and animals working together like pieces of a puzzle. Both concepts emphasize the importance of caring for nature to ensure a beautiful, balanced, and healthy world for all living beings.

Short Infotainment Video In this module, I had to make a video on an environmental topic. So I created a video on Air Quality. The current air quality is a pressing concern that affects the health and well-being of individuals worldwide. High levels of air pollution can lead to respiratory problems, allergies, and even chronic diseases. Monitoring and addressing air quality is crucial in order to protect vulnerable populations, such as children and the elderly. Governments and organizations are implementing measures to reduce pollution and promote clean energy sources. It is important for individuals to stay informed about the current air quality levels in their area and take necessary precautions to minimize exposure to pollutants.

Multi-Media Management In this module, I had to learn what is Multi-Media and how it works.

The purpose of multimedia is to integrate various forms of media, such as text, images, audio, and video, to deliver engaging and interactive content. Multimedia is a kind of weapon that can be used for a good cause. There are mainly 3 types of multimedia Print media, Electronic media, and Social media. The media which is available in printed form is called print media for examples newspaper, magazines, posters, banners, etc. The media which is available in Electronic form is called electronic media for example television, radio, emails, etc. The media which makes us more connected to each other is called social media for example Facebook, Instagram, Twitter, Youtube, etc. Administration of media refers to the management and coordination of media-related activities, resources, and operations. It involves tasks such as planning, organizing, implementing, and evaluating media projects, campaigns, or platforms to ensure their smooth functioning and effectiveness. If one wants to spread a message to the world he/she should use these administrations. For print media and electronic media, we should approach the reporter/editor by writing an email. For voice media (radio) we can contact them directly from the website. Spreading your thoughts is easy on social media, getting engagement/followers might be tough for one but still, it is the platform that will make you famous and spread your message in a short period of time.

Experience from one student:

What did I learn? Here are the takeaways.....I have experienced many things from this internship project. I met new people during these days (in surveys mostly). Now I know why we should conserve plants and trees. I have learned that even if you get successful in life you should be connected to your true roots, and not forgot where you came from. Now I understand the importance of teamwork as I was working alone, and I got stuck a couple of times. I learned convincing adults and seniors is hard but convincing kids is easy. If you got a bad day, just take a walk in the greenery. Don't want any material even if you think it is a waste (garbage is a different thing). I also learned that the blog needs a digit, not a story (it will help me in blog writing).

Day-wise Report

Day	Date	Activity
1	22-6-23	Introductory Session
2	23-6-23	Study tour of the website
3	24-6-23	Blog Writing
4	25-6-23	Info-Graphics
5	26-6-23	Short Infotainment Video
6	27-6-23	Seva Prkalp Visit
7	28-6-23	Cleanliness Activity
8	29-6-23	Ecopark Survey
9	30-6-23	Media Management Workshop and Report Presentation

Certificate:

Date: 3rd July 2023

TO WHOM IT MAY CONCERN

This is to certify that Mr. *Mrunank Bhagwat Warkhade*, student of *Sardar Patel Institute of Technology, Mumbai* for course B. Tech in 4th semester has successfully completed a summer social internship from 22nd To 30th June 2023.

During the tenure with us, under the curriculum SEVA/SATVA course, he had been exposed to different processes and was found diligent, hardworking and inquisitive

We wish him every success in his life an career.

Activity Name: Beach cleaning, Road map Plotting organized by Project Mumbai

Academic Year : 2022-23

Introduction

In a world where constant change and uncertainty prevail, road mapping emerges as an essential tool for navigating complex landscapes. As technology, business, and social dynamics continue to evolve, road mapping provides a clear and strategic approach to achieving goals. This report, authored by Jiya Mehta, explores the experience of volunteering with Project Mumbai's Naksha initiative, a comprehensive mapping project that seeks to chart key locations across Mumbai.

Project Mumbai and the Naksha Initiative

Project Mumbai is a Public-Private-People partnership that aims to make Mumbai and the Mumbai Metropolitan Region (MMR) a better place to live, work, and play. The Naksha initiative is one of Project Mumbai's most ambitious projects, involving a large-scale mapping of Mumbai's roads and significant landmarks, including hospitals, schools, pharmacies, and police stations. By collaborating with the MCGM, Mumbai Police, and Mumbai University, Project Mumbai intends to create a detailed and accessible map for public use.

Jiya Mehta, along with other volunteers, participated in the Naksha project, covering roads like Makwana Road, Mahakali Caves Road, R K P Road, and New Nagardas Road. The project required physically mapping these roads and documenting points of interest using KoBo Toolbox forms. This effort took place from June 23 to July 6, 2023.

Learning Outcomes

Participating in the Naksha initiative provided Jiya Mehta with several key learning outcomes:

1. **Discovery and Learning:** The mapping process encouraged exploration, allowing Jiya to discover new areas and gain insights into the city's layout.
2. **Flexibility and Adaptability:** Jiya learned the importance of adaptability when facing unexpected challenges during the mapping process.
3. **Expanding Boundaries:** The project encouraged stepping out of comfort zones, which fostered personal growth and self-discovery.
4. **Collaboration and Teamwork:** Working on the Naksha project required teamwork, promoting communication and cooperation among volunteers.
5. **Cultural Exchange and Understanding:** Jiya's interactions with various communities in Mumbai helped foster a deeper understanding of cultural diversity.
6. **Environmental Awareness:** The initiative emphasized the importance of environmental consciousness, as volunteers encountered different ecosystems and landscapes during their work.
7. **Self-Discovery and Personal Growth:** Jiya found the experience to be transformative, building resilience and gaining a stronger sense of identity through her work with the Naksha initiative.

Conclusion

Through her involvement with Project Mumbai's Naksha initiative, Jiya Mehta gained valuable insights into the significance of road mapping and its impact on communities. Road mapping provides a strategic approach to navigating through uncertainty, fostering creativity, collaboration, and flexibility. The Naksha project allowed Jiya to contribute to a meaningful cause, enhancing her confidence and communication skills while also promoting cultural exchange and environmental awareness.

Overall, Jiya's experience with Project Mumbai's Naksha initiative exemplifies the benefits of volunteering and road mapping in contributing to community development and personal growth.

Naksha- REDISCOVERING MUMBAI

To whomsoever it may concern

This is with respect to PROJECT NAKSHA-REDISCOVERING MUMBAI that in November 2021, Project Mumbai has initiated. With a formal association with Municipal Corporation of Greater Mumbai (MCGM).

The initiative is to first identify every such road, source the History of the person of prominence who is featured on the sign board, and feature their contribution on a digital platform. The next is to QR code the sign boards which will be the enabler for citizens to be able to digitally track the locations with ease. The initiative was on hold due to the pandemic and we initiated it again with support from MCGM Dec 2022.

The pilot wards undertaken for the project are A, B, C, D, E, GS, KE, HW and T ward which we intend to complete the mapping and collating data of roads till December 2023 with the permission granted by Roads and Traffic Dept. MCGM.

The information facilitates the QR code for the road and shall be available on MCGM website. To take this further the Road department of MCGM has already shared the list of roads for all wards with the Project Mumbai technical team for the project. University of Mumbai and its NSS unit have provided the support of NSS volunteers for conducting the survey of roads.

Project Mumbai authorized the students of Sardar Patel Institute of Technology here to work in close coordination for mapping and collating data for conducting the survey for above wards with MCGM.

Activity Name: Teaching students in school organized by Kilbil school for destitute children

Academic Year : 2022-23

INTRODUCTION

Kilbil was founded in 1999. In its 22 years of existence, it has provided shelter to over 250 children and found a home for 232. That includes 23 challenged children also. We offer shelter to orphan children from 0-6 years of age. We give shelter to all children, no matter how sick or handicapped. We also offer comprehensive services like adoption guidance and counselling centre and child counselling services. In our society, maternity out of wedlock is a cardinal sin. The sin is always committed by two. Unfortunately, only the woman gets punished. Since the mythical days of Kunti and Shakuntala, the problem of unwed mothers has haunted our society. Young unmarried girls who find themselves in this precarious situation face intense social and family pressure and social stigma. We help these girls find a suitable shelter and also help them surrender their children with dignity and confidentiality.

Schedule:

DAILY REPORT

DATE	TIME	TASKS
28TH JUNE - 30TH JUNE	09: 00 TO 3: 00	Conduct daily educational sessions to provide academic support and teaching to orphan students.
01ST JULY - 03RD JULY	09: 00 TO 3: 00	Prepare and deliver study material and lessons based on each group's previous year's curriculum to ensure effective learning. Assess the educational levels of the students and arrange them into age-appropriate groups for tailored teaching
04TH JULY - 06TH JULY	09: 00 TO 3: 00	Organize and document the student profiles systematically for easy access and reference by the teaching team. Analyze the academic levels and capabilities of each student to determine appropriate daily tasks and learning objectives.

Activity Name: Social Work against Child Labour, Internship organized by Child Rights and You (CRY)

Academic Year : 2022-23

About CRY: Child Rights and You:

CRY (Child Rights and You) is a renowned Indian NGO that is committed to promoting and protecting the rights of underprivileged children. Since its establishment in 1979, CRY has made a significant impact by working in collaboration with grassroots organizations and local communities across 23 states in India. The organization focuses on key areas such as education, healthcare, and protection from exploitation, aiming to provide children with equal opportunities and a safe environment to grow and thrive. Through their extensive programs, advocacy efforts, and policy interventions, CRY has positively influenced the lives of over 3 million children, addressing issues like child labor, malnutrition, and lack of access to education. Their commitment to transparency and accountability is reflected in their financial allocation, with a substantial portion of funds directly utilized for program implementation. CRY's impactful work has garnered support from various stakeholders, enabling them to continue their mission of empowering underprivileged children and creating a more equitable society.

Activities with CRY:

1. **Placard Holding Against Child Labour:** Team of fellow volunteers of CRY to hold hand-painted placards for bystanders at Marine Drive on Sunday, June 9th. It was heartwarming to see so many people pause and look, take photos and cheer us on.

Placard Holding

2. **Approaching Shopkeepers and Spreading Awareness:** Approached shopkeepers across SoBo to promote the cause against child labour. Many refused to engage with us. However, a few shopkeepers were kind and patient with us. One of them actively talked about how the cause against child labour is a honorable one.

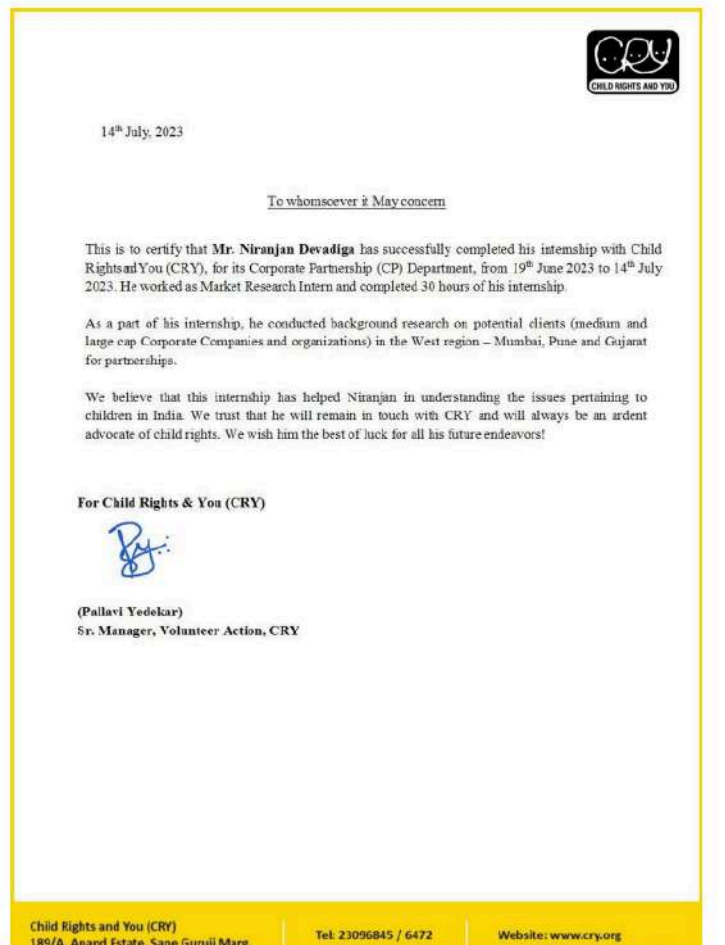

3. Market Research Internship: Enrolled for CRY's Internship Program in Corporate Social Responsibility, from 19th June to 14th July, through which we were able to research potential companies with which CRY could partner. The internship was for 4 weeks, where office visits were necessary.

Experience of one of the student:

My experience working with CRY has taught me a lot about how deeply the ills of child right abuse, in this case, child labour has seeped into society. I am proud to be part of the collective effort against child rights abuse, and I thank CRY for the same.

Activity Name: Food for hunger organized by Rotary club

Academic Year : 2022-23

Introduction

Sayee Pendkar, a student from Sardar Patel Institute of Technology, participated in a volunteering project with Food for Hunger, a non-profit initiative focused on providing emergency food assistance to individuals and families experiencing immediate hunger. This report summarizes Sayee's volunteering experience and contributions to the project's efforts in distributing food to those in need.

Food Distribution and Locations Covered

On the first day of volunteering, Sayee and the team covered areas near Shivaji Nagar. The Food for Hunger project aimed to offer emergency food assistance to individuals and families facing food insecurity. The team distributed food parcels containing essential items such as grains, pulses, cooking oil, biscuits, and fruits. The initiative provided crucial support to people struggling with hunger.

Ensuring Proper Storage and Safety

To maintain the quality of food items and ensure effective distribution, the team focused on proper storage and inventory management. They used dedicated storage facilities with appropriate temperature controls and followed strict storage protocols. Additionally, volunteers took necessary precautions by regularly sanitizing their hands during food distribution to ensure safety and hygiene.

Interaction with Beneficiaries

During the food distribution, Sayee and the team visited several locations, including Shrinagar, Bhagya Nagar, and areas near the clocktower. The volunteers recorded the supplied food packages and the areas covered to maintain accurate documentation.

Sayee's interactions with beneficiaries highlighted the urgency and importance of the project. In one instance, a man mentioned that he had not eaten anything except a biscuit for two days. This feedback underscored the critical role of Food for Hunger in providing much-needed assistance to those experiencing food insecurity. The volunteers also helped a family with two young children, who were overjoyed to receive sufficient food. These personal stories emphasized the project's impact on the lives of those in need.

Reflection and Impact

Volunteering with the Food for Hunger project was a unique experience for Sayee Pendkar. It brought awareness to the issue of food insecurity and the immediate needs of many people in the community. The project not only provided essential food assistance but also offered emotional support and hope to those who often feel overlooked.

Conclusion

Sayee's experience with the Food for Hunger project was both enlightening and humbling. It illustrated the importance of volunteer work in addressing food insecurity and supporting those in need. The project served as a reminder that even small acts of kindness can have a significant impact on people's lives. Through volunteering, Sayee learned the value of empathy and the critical role that organizations like Food for Hunger play in combating hunger and food insecurity.

CERTIFICATE OF APPRECIATION

This is certify that **Miss. Sayee Shrikant Pendkar** from Sardar Patel Institute of Technology , Mumbai, completed 40 hrs manwork under Food For Hunger project in 5th to 16th June 2023 at various places in Nanded District.

Thanks for your dedication and service to the society.

Activity Name: WOMEN Empowerment, CHILD Upliftment, YOUTH Empowerment, HUMAN Rights

organized by Bindura Foundation

Academic Year : 2022-23

Introduction of Bindura Foundation:

Bindura Foundation incorporated as a trust in the year 2019 is striving hard with a mission to promote the well-being of humanity, eliminating extreme poverty and filling the opportunity gaps between rural and urban areas of India. Formed by the passionate and dedicated professional couple and co-managed by the veterans in the industry, Bindura Foundation works on various social aspects like women and child empowerment, education, healthcare, social justice and human rights.

The new age foundation deals with policy, technology, manpower and innovation to cater the need of employability, career, education, health & hygiene. As a technology driven foundation, we are focused on building collaborations to run various campaigns for the help of needy people around. We strive to spread the awareness and then take necessary steps to tackle the situation for providing the right solution.

Area of Work:

Women Empowerment:

Training women and young girls to be “Changemakers” in order to make them financially independent.

Youth Empowerment:

Bindura Foundation promotes the harnessing and cultivation of youth's unlimited talent and energies for their growth and success, thus transforming them into harbingers of progressive social change.

Child Fulfilment:

Bindu Dubey founded the Bindura Foundation in 2000 as a non-profit organisation. Our goal is to find disadvantaged and vulnerable children, put them in a classroom, and help them for the next 12 years of their education, from elementary school to high school. This will take the kids off the streets, teach them the basic skills they need to develop, and give them a chance to become self-sufficient and responsible members of society. The children will have the requisite cognitive skills and maturity to prepare and strive for a brighter future by the time they graduate from high school. When the time comes, we must collaborate with each child to assist them in growing in the right way.

Contribution of Students:

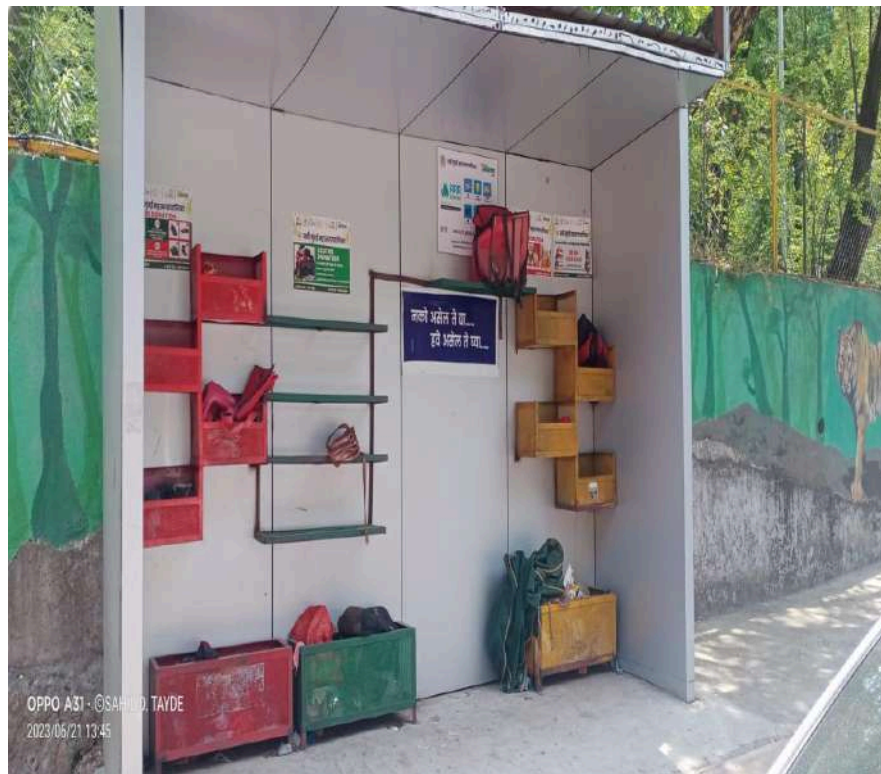

Students joined as a volunteer for the Bindura Foundation on May, 2023. They worked in many parts of Navi Mumbai and helped the Bindura Foundation as volunteers. Their main areas of work were Belapur, Ghansoli, Vashi & KoperKhairne. The task was to distribute clothes, books, and other items to people in need. Here are some photographs of the events."

Activity Name: Beach cleaning, Road map Plotting organized by Project Mumbai

Academic Year : 2022-23

About Project Mumbai: As a Model of Public-Private-People partnership, Project Mumbai has a vision of making Mumbai—and the extended Mumbai Metropolitan Region (MMR)—a better place to live, work, and play with every citizen volunteering to do his/her/their bit for the community as we at Project Mumbai, playing the role of a catalyst—ensuring social transformation through initiatives of scale.

Project Mumbai is an effort to identify challenges that people face, every day. And find solutions

It is an initiative to create a collaboration between People (the citizens), the Public (The administration), and Private entities (Businesses) to make things work Seamlessly.

Project Mumbai seeks your support. Your participation. For Our Mumbai.

Under Project Mumbai students worked under 4 Initiatives:

1. Beach Cleaning (Jallosh - Clean Coasts)
2. Plastic Collection Drive (Plastic Recyclathon)
3. Brochure Making
4. Map Plotting (Naksha)

1. Jallosh - Clean Coasts

Date: June 10, 2023

Objective: The goal of this event was to clean Juhu Beach as part of Project Mumbai's broader efforts to clean Mumbai's coasts and water bodies. This was the 15th edition of the Jallosh project.

Activities and Responsibilities: We volunteered for 2 hours, from 8 am to 10 am, as part of a team of volunteers. We gathered at the beach at 7:30 am, where we were briefed on safety guidelines and waste segregation. We were split into pairs and given bags to separate wet and dry waste. We cleaned the beach from the wall inwards, collecting various types of waste, with plastic packets being the most common.

Outcome: At the end of the session, we handed over the collected waste bags to a truck for recycling. This event highlighted the significant amount of plastic and other waste found on the beach.

2. Plastic Recyclathon

Date: June 24, 2023

Objective: This event aimed to collect recyclable plastic waste across multiple locations in Mumbai. It was part of Project Mumbai's ongoing efforts to promote recycling and reduce plastic waste.

Activities and Responsibilities: We volunteered for 7 hours, from 8 am to 3 pm. We were assigned to Route 4, which included Chembur East, Powai, Bhandup, and Mulund. Our role involved assisting with the collection of plastic waste and coordinating the schedule. We helped the truck driver with navigation, coordinated with the route supervisor, and ensured proper handling of the waste.

Outcome: The Plastic Recyclathon collected a significant amount of recyclable plastic waste. Despite challenges like traffic and coordination, we successfully completed the assigned route and collected waste from residential societies and corporate buildings.

3. Brochure Making (Online)

Date: June 25, 2023

Objective: The purpose of this project was to create a brochure that outlined the various initiatives of Project Mumbai, helping newcomers understand the organization and how they could volunteer.

Activities and Responsibilities: We worked on this project for 2 hours using Canva. Our team collaborated to design and create the brochure. Our roles included contributing content and design elements to make the brochure informative and engaging.

Outcome: The brochure was completed and was intended for distribution to potential volunteers. It served as a useful guide for understanding the work of Project Mumbai.

4. Naksha

Date: June 26 - July 4, 2023

Objective: Naksha was a mapping project in which we covered various routes in the KE Ward, Andheri East. The goal was to plot points of interest along these routes for future reference.

Activities and Responsibilities: We volunteered for a total of 24 hours, covering four different routes: Lok Bharati Road, Military Road, Off Military Road, and Off Makwana Road. We walked these routes, documenting points of interest such as road signs, clinics, and other relevant details.

Outcome: Despite the physical demands of the project, we successfully completed the mapping exercise and recorded all the necessary information. This data will be used for further planning and development in the KE Ward.

Naksha

Project Naksha is an urban mapping and cultural heritage project which aims to collect data and curate stories behind the names of the road and help the citizens navigate this behemoth city and stories that embody its roads.

Routes Covered: 4
Hours worked: 24 Hours

Project Naksha : Basic Inventory : 1.3

Project Naksha : Point of interest 1.3

Conclusion

These volunteering experiences with Project Mumbai were enriching and rewarding. We gained a deeper understanding of the environmental and social challenges faced by Mumbai, and we were able to contribute to meaningful projects. We plan to continue volunteering with Project Mumbai and look forward to participating in more initiatives.

Letter of Acknowledgment - Volunteering with Project Mumbai

To,
Varun Vengala
Sardar Patel Institute of Technology

We would like to appreciate your exceptional volunteering work at Project Mumbai from 24th June to 6th July 2022. Your dedication and commitment have made a significant impact on our organization and the communities we serve.

Your 30 hours of volunteering service have been truly remarkable. Your efforts in Naksha, Jaliosh - Clean Coasts, Plastic Recycle, and Digital Work (Volunteering Brochure) have played a vital role in this Volunteer's Journey. Your passion and hard work have been an inspiration to the entire team.

Your contributions have helped us move closer to our goal of creating a sustainable future. We are grateful for your time and your dedication is a shining example of the impact that volunteers like you can have on our community.

Thank you and your institution again for your outstanding support and commitment to Project Mumbai. We value your contributions and would be delighted to have you continue your journey with us.

Activity Name: Feed supplements organized by Govardhan Sanstha

Academic Year : 2022-23

Introduction

Sakshi Pawne, a student from Sardar Patel Institute of Technology, participated in a project at Govardhan Sanstha, a non-profit organization focused on supporting rural communities through agricultural and animal husbandry programs. This report outlines Sakshi's contributions to the feed supplement program at Govardhan Sanstha, which aims to improve the health and productivity of livestock in rural areas.

Feed Supplement Program Overview

Feed supplements are an essential component of livestock management, providing additional nutrients to ensure the animals' health and productivity. Govardhan Sanstha's feed supplement program aims to support local farmers by offering high-quality supplements designed to address nutritional deficiencies in livestock diets. The program primarily focuses on cows, buffaloes, goats, and poultry.

Sakshi Pawne's Contributions

During her time at Govardhan Sanstha, Sakshi Pawne was involved in several key activities related to the feed supplement program:

- **Nutritional Assessment:** Sakshi assisted in assessing the nutritional needs of various livestock. This involved gathering data on the current diets of animals and identifying areas where additional supplements could be beneficial.
- **Feed Supplement Selection:** Based on the nutritional assessments, Sakshi helped select appropriate feed supplements. She worked with the team to ensure that the supplements contained a balanced mix of proteins, vitamins, minerals, and other essential nutrients.
- **Farmer Training and Education:** Sakshi contributed to training sessions for local farmers. These sessions aimed to educate farmers on the importance of feed supplements, proper usage, and the benefits of supplementing traditional livestock diets. Sakshi explained how these supplements could lead to improved growth, better health, and increased productivity.
- **Inventory Management:** Sakshi helped maintain inventory records for the feed supplements. This included tracking the distribution of supplements to local farmers and ensuring proper storage to maintain quality and freshness.

Impact of the Feed Supplement Program

The feed supplement program, with Sakshi's contributions, had a noticeable impact on the health and productivity of livestock in the Govardhan Sanstha program. Some of the significant outcomes included:

- **Improved Livestock Health:** The introduction of feed supplements led to healthier livestock, with fewer cases of illness and reduced mortality rates.

- **Increased Milk Production:** Dairy farmers observed an increase in milk production after implementing feed supplements in their animals' diets.
- **Better Weight Gain and Growth:** Livestock showed improved weight gain and overall growth, contributing to better market value for the farmers.
- **Enhanced Immune System:** The additional nutrients in the feed supplements helped strengthen the animals' immune systems, making them more resilient to common diseases.

Conclusion

Sakshi Pawne's involvement in the feed supplement program at Govardhan Sanstha demonstrated the value of student participation in community-oriented projects. Through her work, she contributed to the success of a program that supports rural farmers and improves the quality of life for livestock.

The feed supplement program, with its focus on providing essential nutrients to livestock, plays a crucial role in promoting agricultural development and supporting rural livelihoods. Sakshi's experience underscores the importance of such initiatives and the positive impact they can have on the community.

Activity Name: Teaching 8th/9th/10th standard students in NGO organized by Bright Kids Foundation

Academic Year : 2022-23

Bright Kids Foundation is a non-government, not for profit organization established for a better tomorrow. It is our belief that education should be the basic right of all children, regardless of their financial situation. Initially they plan to support the educational needs of school children in and around Maharashtra.

Teaching Activities

Interns played a key role in educating students in several subjects, focusing on Mathematics and Science for grades 7 through 10. They taught a variety of topics across these grades, with the following notable lessons:

- **Laws of Motion (9th Grade Science):** Interns taught the basic concepts of motion, including Newton's laws, providing real-world examples to help students understand the principles.
- **Force and Gravitation (8th Grade Science):** This chapter covered the nature of force, its types, and the concept of gravitation. Interns used practical examples to explain these concepts.
- **Sets (9th Grade Algebra):** Interns introduced students to the basic concepts of sets, including unions, intersections, and set theory fundamentals.
- **Real Numbers (9th Grade Algebra):** This chapter focused on rational and irrational numbers, with interns helping students distinguish between different types of real numbers.
- **Gravitation (10th Grade Science):** Interns covered the concept of gravitation, explaining its significance in everyday life and its role in the universe.
- **Linear Equations in Two Variables (10th Grade Algebra):** This lesson involved solving linear equations, with interns guiding students through various methods and practical examples.
- **Rational and Irrational Numbers (8th Grade Maths):** This chapter discussed the properties of rational and irrational numbers, providing examples to clarify the concepts.

- **Parallel Lines and Transversals (8th Grade Maths):** Interns taught the geometric concepts of parallel lines, transversals, and corresponding angles, illustrating these topics with diagrams and examples.

Interns used a combination of traditional teaching methods and interactive sessions to engage students and ensure comprehension. They also assisted students with their homework and exam preparation, fostering a supportive learning environment.

Events Attended :

1. **Go Green:** With the help of NGO we had organize workshops to educate students about environmental issues, such as climate change, waste management, renewable energy, or biodiversity. With the help of students we organized an awareness campaigns within the NGO. They can create posters, banners to spread messages about conservation, energy-saving tips, or the importance of preserving natural resources.

2. **Yoga Day:** The NGO conducted yoga sessions on Yoga Day led by a qualified instructor. Students were taught age-appropriate yoga asanas, along with breathing exercises, relaxation techniques, and guided meditation. Working closely with the instructor, we helped students needing modifications and assisted in adapting the poses for their safety and comfort.

Activity Name: Beach cleaning by Project Mumbai

Academic Year: 2022-23

Introduction

Date: April 6th

Location: Juhu Beach

Organizers: SPIT AIML Students

On April 6th, a group of students from the SPIT AIML program organized a beach cleaning drive at Juhu Beach. The aim of the initiative was to contribute towards environmental conservation and raise awareness about the importance of keeping beaches clean. The beach cleaning drive at Juhu witnessed enthusiastic participation from SPIT AIML students, faculty, and local volunteers. Through collective efforts, a significant amount of waste was removed from the beach, contributing to its cleanliness and preservation. The event also served as a platform to promote environmental consciousness and inspire community action towards maintaining clean and healthy beaches. By engaging with the public, the initiative aimed to instill a sense of responsibility and encourage sustainable behaviors among beachgoers.

Learning Outcomes

Tejas:

- Understands core concepts deeply.
- Applies theory to practical problems effectively.
- Communicates well orally and in writing.
- Thinks critically and analytically.
- Pursues continuous learning actively.

Nikhil:

- Conducts independent research effectively.
- Generates creative solutions to complex problems.
- Collaborates well in teams.
- Adapts to challenges resiliently.
- Seeks and incorporates feedback for improvement.

Deepraj:

- Masters' technical skills proficiently.
- Analyzes and interprets data effectively.
- Pay attention to detail meticulously.
- Gains practical experience through internships.
- Values lifelong learning and development.

Sushant:

- Develops leadership skills confidently.
- Manages time and resources efficiently.
- Demonstrates empathy and integrity.
- Engages in community service actively.
- Embraces social responsibility and global citizenship.

Prashil:

Nurtures an entrepreneurial mindset.
Builds business acumen and financial literacy.
Collaborates with interdisciplinary teams effectively.
Seeks mentorship and guidance from professionals.
Demonstrates resilience and adaptability in challenges.

Conclusion

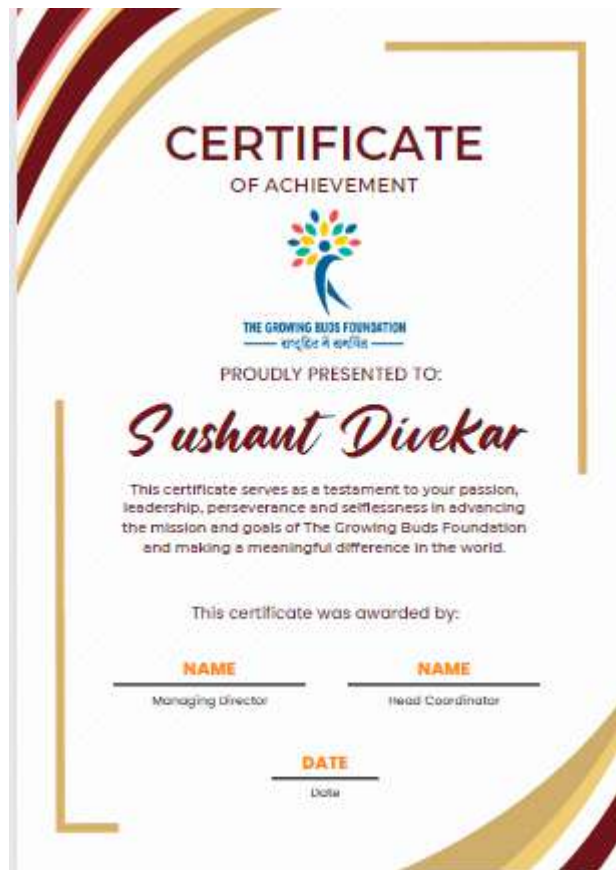

The beach cleaning drive organized by SPIT AIML students at Juhu Beach on April 6th was a resounding success. It not only resulted in a cleaner environment but also fostered a spirit of environmental stewardship among participants and the community at large. Such initiatives are crucial in safeguarding our natural resources and promoting a cleaner, greener future for generations to come.

Introduction

Manjali Varma, a student from Sardar Patel Institute of Technology, undertook an internship at Bright Future NGO in Chembur, Mumbai. Bright Future NGO is a non-profit organization dedicated to empowering underprivileged freshers students by providing them with job opportunities. This report highlights Manjali's volunteering efforts and her contributions to the organization.

During her internship at Bright Future NGO, Manjali Varma undertook various key activities aimed at assisting young individuals in their career development journey. Her primary focus was on

facilitating job opportunities for fresher students by actively engaging with job providers through platforms like Indeed, LinkedIn, and Naukri.com. By meticulously matching job descriptions with the skills and aspirations of young candidates, Manjali effectively bridged the gap between employers and job seekers, thus enabling youth to embark on their professional paths with confidence.

Furthermore, Manjali played a vital role in creating a supportive ecosystem for the youth within the organization. She collaborated closely with parents, teachers, communities, and local governing bodies to foster an environment conducive to the growth and development of young individuals. Through her efforts, Manjali emphasized the importance of providing guidance and support at every stage of a young person's journey, thereby driving tangible changes in their lives and empowering them to overcome o

bstacles and achieve their goals.

Manjali's work exemplified the holistic approach embraced by Bright Future NGO, wherein the focus extends beyond mere job placement to encompass comprehensive engagement with various stakeholders. By facilitating job opportunities and fostering a nurturing environment, Manjali significantly contributed to empowering young individuals to pursue their aspirations and realize their full potential.

During her internship at Bright Future NGO, Manjali Varma played a pivotal role in empowering young individuals and fostering their career development through the following key activities:

1. **Job Placement Assistance:** Manjali actively engaged with job providers on platforms like Indeed, LinkedIn, and Naukri.com, matching job descriptions with the skills of fresher students to facilitate suitable job opportunities.
2. **Stakeholder Collaboration:** She collaborated closely with parents, teachers, communities, and local governing bodies to create a supportive ecosystem conducive to the growth and development of youth.
3. **Networking and Outreach:** She conducted outreach activities, participated in networking events, and attended job fairs to expand the network of job providers and create more opportunities for youth.
4. **Data Management and Analysis:** Manjali efficiently managed data related to job placements, candidate profiles, and employer contacts, utilizing data analysis techniques to optimize outcomes for youth seeking employment.

Conclusion

In conclusion, Manjali's internship at Bright Future NGO was marked by her unwavering dedication to supporting youth in their career development endeavors. Through her proactive involvement in job placement initiatives and her collaborative efforts with stakeholders, she made meaningful contributions to the organization's mission of driving positive change in the lives of young people. Manjali's commitment underscores the significance of collaboration, guidance, and empowerment in creating opportunities for the youth and paving the way for a brighter future for all.

Activity Name: Social work & Blood Donation work for NGO organized by Youva Social Foundation

Academic Year : 2022-23

Youva Social Foundation is a non-governmental organization (NGO) based in Chandrapur, Maharashtra, India. They focus on various social initiatives aimed at community development, education, healthcare and other areas of social welfare. Their activities often include organizing awareness campaigns, providing education and skill development programs, conducting health camps, and implementing sustainable development projects.

Blood Donation Camp:

- Collaborated with local hospitals and healthcare providers to organize a blood donation camp.
- Handled logistics and administrative tasks related to venue booking, equipment setup, and volunteer coordination.
- Designed and implemented promotional campaigns to raise awareness about the event and encourage participation.
- Managed donor registration, medical screenings, and post-donation care to ensure a smooth donation process.
- Compiled and maintained records of blood donors, including contact information and donation history, for future outreach and follow-ups.

Books Distribution at Z.P. School:

- Partnered with the Zilla Parishad (Z.P.) School to distribute educational books and materials to students.
- Conducted needs assessments and inventory management to determine the types and quantities of books required.

- Coordinated with publishers, suppliers, and donors to procure the necessary books and ensure timely delivery.
- Organized book distribution events at the school, including setup, distribution logistics, and interaction with students and teachers.
- Monitored the impact of book distribution by collecting feedback from students, teachers, and parents regarding the usefulness of the materials provided.

Clothes Distribution to the Needy:

- Planned and executed clothing distribution drives in collaboration with local communities and charitable organizations.
- Managed donation drives for collecting gently used or new clothes from individuals, businesses, and organizations.
- Oversaw sorting, cleaning, and packaging of donated clothing items to ensure quality and suitability for distribution.
- Coordinated distribution events at various locations, including setup, volunteer management, and beneficiary registration.
- Conducted follow-up surveys or assessments to assess the effectiveness of clothing distribution efforts and gather feedback for improvement.

Office Work:

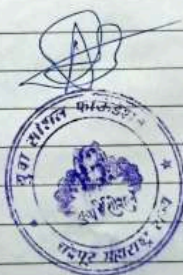

- Handled administrative tasks such as data entry, record keeping, and documentation related to project activities.
- Prepared and distributed informational materials, reports, and newsletters to update stakeholders on project progress and outcomes.
- Assisted in fundraising efforts by preparing grant proposals, sponsorship requests, and donor acknowledgments.
- Conducted research and analysis to support program planning, evaluation, and strategic decision-making within the organization.

Activity Name: Teaching 8th/9th/10th standard students in NGO organized by Bright Kids Foundation

Academic Year : 2022-23

Bright Kids Foundation is a non-government, not for profit organization established for a better tomorrow. It is our belief that education should be the basic right of all children, regardless of their financial situation. Initially they plan to support the educational needs of school children in and around Maharashtra.

Teaching Activities

Interns played a key role in educating students in several subjects, focusing on Mathematics and Science for grades 7 through 10. They taught a variety of topics across these grades, with the following notable lessons:

- **Laws of Motion (9th Grade Science):** Interns taught the basic concepts of motion, including Newton's laws, providing real-world examples to help students understand the principles.
- **Force and Gravitation (8th Grade Science):** This chapter covered the nature of force, its types, and the concept of gravitation. Interns used practical examples to explain these concepts.
- **Sets (9th Grade Algebra):** Interns introduced students to the basic concepts of sets, including unions, intersections, and set theory fundamentals.
- **Real Numbers (9th Grade Algebra):** This chapter focused on rational and irrational numbers, with interns helping students distinguish between different types of real numbers.
- **Gravitation (10th Grade Science):** Interns covered the concept of gravitation, explaining its significance in everyday life and its role in the universe.
- **Linear Equations in Two Variables (10th Grade Algebra):** This lesson involved solving linear equations, with interns guiding students through various methods and practical examples.
- **Rational and Irrational Numbers (8th Grade Maths):** This chapter discussed the properties of rational and irrational numbers, providing examples to clarify the concepts.

- **Parallel Lines and Transversals (8th Grade Maths):** Interns taught the geometric concepts of parallel lines, transversals, and corresponding angles, illustrating these topics with diagrams and examples.

Interns used a combination of traditional teaching methods and interactive sessions to engage students and ensure comprehension. They also assisted students with their homework and exam preparation, fostering a supportive learning environment.

Events Attended :

1. **Go Green:** With the help of NGO we had organize workshops to educate students about environmental issues, such as climate change, waste management, renewable energy, or biodiversity. With the help of students we organized an awareness campaigns within the NGO. They can create posters, banners to spread messages about conservation, energy-saving tips, or the importance of preserving natural resources.

2. **Yoga Day:** The NGO conducted yoga sessions on Yoga Day led by a qualified instructor. Students were taught age-appropriate yoga asanas, along with breathing exercises, relaxation techniques, and guided meditation. Working closely with the instructor, we helped students needing modifications and assisted in adapting the poses for their safety and comfort.

Activity Name: Volunteering at NGO NASEOH Opportunities for the Handicapped : -Sridhar Sundar

Academic Year : 2022-23

The National Society for Equal Opportunities for the Handicapped (NASEOH) is a prominent NGO in India dedicated to empowering individuals with disabilities. Established in 1968, NASEOH focuses on providing education, vocational training, rehabilitation, and employment opportunities to people with disabilities, enabling them to lead independent and fulfilling lives. Through various programs and initiatives, NASEOH advocates for the rights and inclusion of persons with disabilities, striving to create a more equitable society. With a strong presence across India, NASEOH continues to make significant strides in promoting accessibility, awareness, and social integration for persons with disabilities.

Activities

- During my volunteer work at the organization, I assisted Tata Power volunteers in plantation activities on my first day.
- My tasks mainly revolved around assisting students with Microsoft products like Word, Excel, and PowerPoint, as well as providing one-on-one support to individuals who required additional assistance, such as Karan, who has a partial visual impairment.
- Assigned tasks by Soundarya Ma'am included helping Computer Department students with assignments and practicals, monitoring their progress, and ensuring tasks like Casing, Concatenate, Text Left and Right abstraction, arithmetic and logical operations on Excel, and formatting exercises were completed properly.

- Additionally, I assisted the Data Entry Department by assigning Excel or Word assignments, monitoring students' progress, and providing support with tasks assigned by Soundarya ma'am, such as rate of interest calculations, sorting, tabularizing, and working on charts.
- I also conducted teaching sessions on key Excel functions like Pie Graphs and Charts and introduced intellectual games aimed at improving brain capability and concentration.
- Apart from working in the Computer and Data Entry departments, I occasionally provided assistance in the placement department and had the opportunity to explore other departments such as ceramic and arts and crafts, welding, bakery, assembly, and aids and appliances.
- I was impressed by the organization's policy of offering diverse activities every day, such as Gym, Zumba, and Dance, which not only kept the students enthusiastic but also encouraged them to develop new skills and interests.
- Overall, my experience at the organization was eye-opening, and I gained insights into the resilience and adaptability of individuals with disabilities.

Events Attended :

1. **Plantation Workshop:** Collaborated with Tata Power volunteers to organize a plantation workshop aimed at raising awareness about environmental issues. Students actively participated in creating posters and banners to spread messages on conservation, energy-saving tips, and the importance of preserving natural resources. **Yoga Day:** Contributed to organizing yoga sessions led by qualified instructors on Yoga Day. Students were taught age-appropriate yoga asanas, breathing exercises, and relaxation

techniques. Provided assistance in adapting poses for students with disabilities, ensuring their safety and comfort during the sessions.

2. **Dance Workshops:** Collaborating with an external instructor, the NGO organized dance workshops for handicapped students. These workshops provided students with opportunities for recreation and expression, focusing on tailored dance moves to accommodate their abilities and preferences. As a volunteer, I facilitated the workshops, ensuring all students felt supported and empowered to participate fully. The workshops promoted physical exercise, social interaction, and self-confidence among the students, fostering their overall well-being.

Activity Name: Beach cleaning, Road map Plotting organized by Project Mumbai

Academic Year : 2022-23

Introduction

In a world where constant change and uncertainty prevail, road mapping emerges as an essential tool for navigating complex landscapes. As technology, business, and social dynamics continue to evolve, road mapping provides a clear and strategic approach to achieving goals. This report, authored by Jiya Mehta, explores the experience of volunteering with Project Mumbai's Naksha initiative, a comprehensive mapping project that seeks to chart key locations across Mumbai.

Project Mumbai and the Naksha Initiative

Project Mumbai is a Public-Private-People partnership that aims to make Mumbai and the Mumbai Metropolitan Region (MMR) a better place to live, work, and play. The Naksha initiative is one of Project Mumbai's most ambitious projects, involving a large-scale mapping of Mumbai's roads and significant landmarks, including hospitals, schools, pharmacies, and police stations. By collaborating with the MCGM, Mumbai Police, and Mumbai University, Project Mumbai intends to create a detailed and accessible map for public use.

Jiya Mehta, along with other volunteers, participated in the Naksha project, covering roads like Makwana Road, Mahakali Caves Road, R K P Road, and New Nagardas Road. The project required physically mapping these roads and documenting points of interest using KoBo Toolbox forms. This effort took place from June 23 to July 6, 2023.

Learning Outcomes

Participating in the Naksha initiative provided Jiya Mehta with several key learning outcomes:

1. **Discovery and Learning:** The mapping process encouraged exploration, allowing Jiya to discover new areas and gain insights into the city's layout.
2. **Flexibility and Adaptability:** Jiya learned the importance of adaptability when facing unexpected challenges during the mapping process.
3. **Expanding Boundaries:** The project encouraged stepping out of comfort zones, which fostered personal growth and self-discovery.
4. **Collaboration and Teamwork:** Working on the Naksha project required teamwork, promoting communication and cooperation among volunteers.
5. **Cultural Exchange and Understanding:** Jiya's interactions with various communities in Mumbai helped foster a deeper understanding of cultural diversity.
6. **Environmental Awareness:** The initiative emphasized the importance of environmental consciousness, as volunteers encountered different ecosystems and landscapes during their work.
7. **Self-Discovery and Personal Growth:** Jiya found the experience to be transformative, building resilience and gaining a stronger sense of identity through her work with the Naksha initiative.

Conclusion

Through her involvement with Project Mumbai's Naksha initiative, Jiya Mehta gained valuable insights into the significance of road mapping and its impact on communities. Road mapping provides a strategic approach to navigating through uncertainty, fostering creativity, collaboration, and flexibility. The Naksha project allowed Jiya to contribute to a meaningful cause, enhancing her confidence and communication skills while also promoting cultural exchange and environmental awareness.

Overall, Jiya's experience with Project Mumbai's Naksha initiative exemplifies the benefits of volunteering and road mapping in contributing to community development and personal growth.

Naksha- REDISCOVERING MUMBAI

To whomsoever it may concern

This is with respect to PROJECT NAKSHA-REDISCOVERING MUMBAI that in November 2021, Project Mumbai has initiated. With a formal association with Municipal Corporation of Greater Mumbai (MCGM).

The initiative is to first identify every such road, source the history of the person of prominence who is featured on the sign board, and feature their contribution on a digital platform. The next is to QR code the sign boards which will be the enabler for citizens to be able to digitally track the locations with ease. The initiative was on hold due to the pandemic and we initiated it again with support from MCGM Dec 2022.

The pilot wards undertaken for the project are A, B, C, D, E, GS, KE, HW and T ward which we intend to complete the mapping and collating data of roads till December 2023 with the permission granted by Roads and Traffic Dept. MCGM.

The information facilitates the QR code for the road and shall be available on MCGM website. To take this further the Road department of MCGM has already shared the list of roads for all wards with the Project Mumbai technical team for the project. University of Mumbai and its NSS unit have provided the support of NSS volunteers for conducting the survey of roads.

Project Mumbai authorized the students of Sardar Patel Institute of Technology here to work in close coordination for mapping and collating data for conducting the survey for above wards with MCGM.

Name of Team Members:

Activities: Service to SPCE library for 30 hrs.

In the academic year 2022-2023, as part of the Seva Satva course, our collaboration with SPCE library involved dedicating 30 hours of service towards various tasks aimed at enhancing the library's functionality. Commencing in May 2023 and concluding in July 2023, our responsibilities encompassed organizing books within the library shelves, ensuring systematic updates of records, and meticulously registering abstracts for engineering journals. Led by Mr. Mahesh and under the mentorship of Mrs. Sheetal Chaudhari, our efforts were aimed at streamlining the library's operations and facilitating easier access to resources for students and faculty alike. Through our dedicated service, we not only contributed to the efficient functioning of the library but also gained valuable insights into the intricacies of library management and academic resource organization. The outcomes of the course were evident in the improved accessibility and organization of library resources, fostering a conducive learning environment for the SPCE community.

Following students of SPIT reporting to SPCE Central Library for giving seva (service) in the Month of May/June 2023 on below given dates:

1	Mr. Atharva Patil

Activities: Spreading Fertilizers on Flower Plants, Filling the sapling bags and aligning the bags in a proper order, Filling the sapling bags and segregating rotten saplings from the healthy ones etc.

The Seva Satva course in Gardening provided an enriching and practical experience in nurturing and cultivating plants. Over the course of 30 hours, we engaged in various activities within the nursery, gaining valuable insights into plant care, propagation techniques, and the importance of environmental stewardship. Through hands-on tasks such as planting, watering, weeding, and pruning, we not only learned the fundamentals of gardening but also developed a deeper appreciation for the interconnectedness of all living beings and the environment. Additionally, by understanding the significance of soil health, composting, and sustainable gardening practices, we were empowered to contribute positively to our local ecosystems. Furthermore, the course fostered a sense of responsibility and mindfulness towards nature, encouraging us to become conscientious caretakers of our surroundings. By immersing ourselves in the nurturing process of plant growth, we not only honed practical skills but also cultivated a sense of patience, resilience, and respect for the natural world. Overall, the Seva Satva course in Gardening was not only an educational endeavor but also a journey of personal growth and environmental consciousness. It equipped us with the knowledge, skills, and values necessary to make meaningful contributions towards creating a greener and more sustainable future.

WORK TABLE

SR.NO.	DATE	HOURS	ACTIVITY
1	20/06/2023 Tuesday	2	Sorting used bags according to size and filling the sapling bags
2	07/07/2023 Friday	3	Filling the sapling bags and segregating rotten saplings from the healthy ones
3	11/07/2023 Tuesday	8	Filling the sapling bags and aligning the bags in a proper order, adding fertilized soil to cacti
4	12/07/2023 Wednesday	8	Filling the sapling bags and aligning the bags in a proper order, mixing soil and fertilizer and packing them in plastic bags and stacking them
5	14/07/2023 Friday	5	Filling the sapling bags and aligning the bags in a proper order
6	01/07/2023 Saturday	4 Total=30hrs	Spreading Fertilizers on Flower Plants

DATE WISE REPORT

DAY 1: 20/04/2023 TUESDAY

Task: Sorting used bags according to size and filling the sapling bags.

Description:

- Since it was raining heavily, I was told to work under the shed.
- I had to sort the sapling bags from a sack full of used sapling bags and choose the smallest ones to fill the soil into.
- I had to make sure that the sapling bag was filled up to its brim so that once watered, the soil sets perfectly.

DATE WISE REPORT

DAY 2: 07/07/2023 FRIDAY

Task: Filling the sapling bags and segregating rotten saplings from the healthy ones and arranging them.

Description:

- I was given the task of segregating the rotten saplings and removing its soil for reuse.
- I then scraped the soil from the pile full of soil + fertilizer and put them in the sapling bag until it touched the brim.
- When the sapling bag is full, tap it 4-5 times so that there are no voids left in the soil for the air to pass through.

DATE WISE REPORT

DAY 3: 11/07/2023 TUESDAY

Task: Filling the sapling bags and aligning the bags in a proper order, adding fertilized soil to each.

Description:

- Since it was raining heavily, I was told to work under the shed.
- I had to sort the sapling bags from a sack full of used sapling bags and choose the smallest ones to fill the soil into.
- I had to make sure that the sapling bag was filled up to its brim so that once watered, the soil sets perfectly.
- I also added soil to the old cacti, planted and arranged new plants on the pots attached to the wall for showcase.

DATE WISE REPORT

DAY 4: 12/07/2023 WEDNESDAY

Task: Filling the sapling bags and aligning the bags in a proper order, mixing soil and fertilizer and packing them in plastic bags and stacking them.

Description:

- I had to fill and align the sapling bags.
- Carry it from source (soil pit) to destination (stage)
- Mixing of soil and cowdung as a fertilizer was done
- We had to pack them in plastic bags and store it for future use

DATE WISE REPORT

DAY 5: 14/07/2023 FRIDAY

Task: Filling the sapling bags and aligning the bags in a proper order.

Description:

- I had to fill and align the sapling bags.
- Carry it from source (soil pit) to destination (stage)

DATE WISE REPORT

DAY 6: 01/07/2023 SATURDAY

Task: Spreading Fertilizers on Flower Plants

Description:

- I had to Spread Fertilizers on Flower Plants properly.
- The amount of Fertilizer should be in appropriate manner for the better life of a Flower Plant.

WORK TABLE				
SR.NO.	DATE	HOURS	ACTIVITY	
1	20/06/2023 Tuesday	1	Sorting used bags according to size and filling the sapling bags	
2	07/07/2023 Friday	3	Filling the sapling bags and segregating rotten saplings from the healthy ones	
3	11/07/2023 Tuesday	5	Filling the sapling bags and aligning the bags in a proper order, adding fertilized soil to cacti	
4	12/07/2023 Wednesday	8	Filling the sapling bags and aligning the bags in a proper order, mixing soil and fertilizer and packing them in plastic bags and stacking them	
5	14/07/2023 Friday	5	Filling the sapling bags and aligning the bags in a proper order	
6	01/07/2023 Saturday	4	Total:30hrs	
			Spreading Fertilizers on Flower Plants	

CONCLUSION

- To sum up, the gardening project was accomplished through a collaborative approach in which I actively contributed as a member of a team.
- On an individual level, I successfully fulfilled diverse responsibilities, including filling sapling bags, blending soil with fertilizer, classifying plants as healthy or rotten, I learnt a lot of new things about gardening.
- We also made good relations and enjoyed a lot with the staff at the same time
- This balanced both work and fun

Activity Name: Working as a volunteer at a special school: Swami Brahmanand Pratishthan

In the 30 hours Working with NGO SEVA SATVA course, Dhruv Yadav, a 2nd year CE student's volunteer experience at Swami Brahmanand Pratishthan was enlightening and fulfilling. Guided by Vidya Ma'am, he learned the intricacies of teaching students with individualized education plans. Despite initial communication challenges, Dhruv embraced the importance of understanding students' perspectives.

He realized the value of allowing students to navigate tasks independently and the significance of discipline in shaping character. Dhruv also recognized the vital role of sports in holistic development, particularly in fostering mind-body coordination.

Overall, his time at the organization was transformative, deepening his understanding of education, empathy, discipline, and the power of sports in enriching lives

About the NGO

Swami Brahmanand is a special school catering to special needs children wherein: A curriculum is framed and an Individual Educational program is planned for every student. To enable the students with special needs face the rapid challenges in the society the curriculum provides practical exposure with a holistic approach. The objective of the training program is to make every student independent to the maximum possible extent depending on their ability, instill in them a sense of confidence and make them responsible members of the community.

Along with special education other support services provided at this unit are:

- Occupational Therapy
- Counseling and Guidance
- Computer Skills
- Art & Craft
- Music
- Dance /Drama
- Sports
- Yoga
- Various other Recreational activities for students, staff and parents

Work Done

Date	Hours Finished	Work assigned	Word description
24/07/23	6 hours	Observe Primary II class (11-13 year olds)	Assisted kids with classwork (reading and writing) and learnt about proceedings in the school and about the children
25/07/23	6 hours	Observe Secondary I class (15-16 year olds)	Assisted kids with classwork (Mathematics) and ensured safety during skating class
26/07/23	6 hours	Observe Primary I class (9-10 year olds)	Assisted with classwork (Spelling) and disciplined the kids
31/07/23	6 hours	Assist the PT teacher	Helped take timings and conduct practice for Floorball. Additionally, assisted with conduct of several mind-body coordination activities
1/08/23	6 hours	Observe Primary III class	Assisted kids with Vegetable cutting, memory based activities. Disciplined the class when necessary

Conclusion

My time at Swami Brahmanand Pratishtan has been a humbling one, from being greeted as soon as i walked into the classroom with kids who had no idea who i was, to being used as an opportunity to get into the elevator to go one level down, i have met some inspiring and sweet children. I am incredibly grateful to every teacher, the principal and the managing trustee; heroes for nurturing these children, to provide me with this opportunity. I hope I am able to continue working with this organization some day, to build an equally bright future for everyone.

Activities: Anna Daan, Cleaning the place, Sanitizing Utensils, Filling excel records organized by Divine Jyot Foundation

Collaborating with the Divine Jyot Foundation (NGO) Andheri has been incredibly fulfilling. This organization tirelessly works to assist the underprivileged by providing essential provisions such as food and medicine. We feel privileged to have been able to contribute to initiatives that resonate with their noble mission. Our heartfelt gratitude extends to the Divine Jyot Foundation (NGO) Andheri for granting us this invaluable opportunity to be part of their impactful work. A special acknowledgment is owed to Mrs. Sheetal Chaudhari for her unwavering guidance and support, which has been instrumental in our journey. Moving forward, we are dedicated to utilizing the knowledge and skills acquired during this experience to continue positively impacting the community.

Sr No	Day	Hours	Activities
1	17th June	4	Anna Daan-Narayan Seva (Providing Food) Sweeping, Mopping
2	18th June	5	Anna Daan-Narayan Seva (Providing Food) Filling Excel Records,
3	21st June	2	Cleaning and Sanitizing Utentils
4	22nd June	3	Anna Daan-Narayan Seva (Providing Food)
5	23rd June	4	Anna Daan-Narayan Seva (Providing Food)
6	24th June	4	Anna Daan-Narayan Seva (Providing Food) Sweeping, Mopping
7	25th June	5	Anna Daan-Narayan Seva (Providing Food) Filling Excel Records,
8	26th June	3	Anna Daan-Narayan Seva (Providing Food)
	Total Time	30	

DAY 1

TIME - 4 HR

DATE - 17TH JUNE, 2023

In the NGO, our most significant work was to do "Anna Daan" to poor people. We served food and helped feeding people. We supported Mr. Prabhakar (Anna - what people called him out of respect) in the "Narayan Seva". Food provision for NGOs involves the act of supplying nourishing meals and sustenance to individuals or communities in need.

DAY 2

TIME - 5 HR

DATE - 18TH JUNE, 2023

On the second day of my volunteering at the NGO, I actively contributed to the **food donation** initiative and supported the cleanliness of the facility, while also engaging in different tasks compared to the previous day. Our primary focus was to distribute the meals with compassion, guaranteeing that each individual received enough nourishment.

DAY 3

TIME - 2 HR

DATE - 21ST JUNE, 2023

On the third day of my volunteering at the NGO, in addition to serving food, I also dedicated time to **clean the utensils** used during the meal preparation. By carefully washing and sanitizing the utensils, I aimed to maintain high standards of cleanliness and hygiene. This ensured that the beneficiaries received food prepared in a safe and healthy environment.

DAY 4

TIME - 3 HR

DATE - 22ND JUNE, 2023

In addition to serving food, I actively collaborated with other volunteers and the NGO staff, fostering a sense of teamwork and effective communication. By working together seamlessly, we created a positive and productive atmosphere, ensuring the smooth running of operations. We also helped in **cleaning the premises**.

DAY 6

TIME - 4 HR

DATE - 24TH JUNE, 2023

A dish was crafted, comprising of kaadu ki Sabzi, Dal, Rice, roti, a bit of pickle and Laddu as a sweet. A moment of gratitude and prayer preceded the serving of the food. The crowd numbered around 25 - 30 individuals, with men, women, and children in attendance. The key objective given to us was to distribute the meals with care, ensuring that every person received the necessary nourishment. From start to finish, the activity took approximately 3-4 hours.

DAY 5

TIME - 4 HR

DATE - 23RD JUNE, 2023

A culinary creation was made, consisting of Rajma, Dal, Rice, roti, a bit of pickle and laddu as a sweet. Prior to the meal being served, a moment of prayer was observed to seek blessings. The crowd consisted of roughly 25 - 30 individuals. The core responsibility assigned to us was to distribute the meals with compassion, ensuring that everyone received the required nourishment. Our secondary responsibility was assisting the Mr. Prabhakar with all the preparations. We also cleaned the utensils. The total time taken for the activity was approximately 3-4 hours.

Activity Name: Beach Cleaning, Banner Making, Marine Drive FundRaising

Academic Year : 2022-23

About Growing Buds Foundation: The Growing Buds Foundation is a non-profit organization dedicated to fostering sustainable development and social welfare. Its mission encompasses a range of activities including environmental conservation, educational support for underprivileged children, and community empowerment projects. By engaging volunteers and collaborating with local communities, the foundation seeks to address pressing societal needs and inspire lasting positive change. Through initiatives like beach clean-ups, fundraising events, and educational support programs, the Growing Buds Foundation aims to nurture growth and development, ensuring a brighter future for all stakeholders.

Under Growing Buds Foundation students worked under 4 Initiatives:

1. Banner, Poster, and Selfie-Stand making
2. Juhu Beach Cleaning
3. Versova Beach Cleaning
4. Marine Drive Fundraising by selling Lemonade & Snacks/Stationery items distribution at an orphanage

1. Banner, Poster, and Selfie-Stand making

Date: 24th March 2023

Objective: The goal of this event was to create attractive posters with clear message

Activities and Responsibilities: 6 hours ,we made the design,printed it and made the stands

2. Juhu Beach Cleaning

Date: 28th March 2023

Objective: The primary goal of the Juhu Beach cleaning event was to mitigate plastic pollution in one of Mumbai's most visited coastal areas. This initiative was a key component of Project Mumbai's broader campaign to enhance urban environmental health by significantly reducing plastic waste in the city's beaches and water bodies.

Activities and Responsibilities: Volunteers gathered for a session of intensive beach cleaning, focusing on the removal of plastic waste and other debris that pose a threat to marine life and beach aesthetics. Participants were assigned specific zones of the beach to ensure comprehensive coverage. Responsibilities included collecting, sorting, and properly disposing of all gathered waste, with particular attention to recycling applicable materials.

11, Juhu Tara Rd, Airport Area, Juhu, Mumbai, Maharashtra 400049, India

3. Versova Beach Cleaning

Date: 6th April 2023

Objective: The purpose of this initiative was to conduct a thorough cleanup of Versova Beach as part of a larger effort to improve the coastal environment and raise public awareness about the importance of maintaining clean marine habitats.

Activities and Responsibilities: Volunteers gathered for a session of intensive beach cleaning, focusing on the removal of plastic waste and other debris that pose a threat to marine life and beach aesthetics. Participants were assigned specific zones of the beach to ensure comprehensive coverage. Responsibilities included collecting, sorting, and properly disposing of all gathered waste, with particular attention to recycling applicable materials.

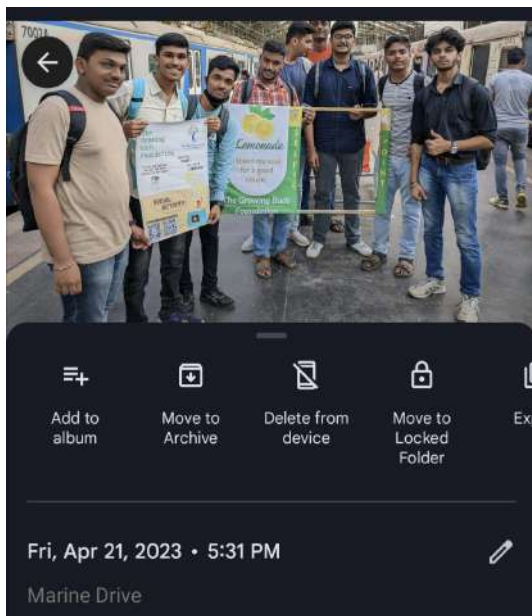

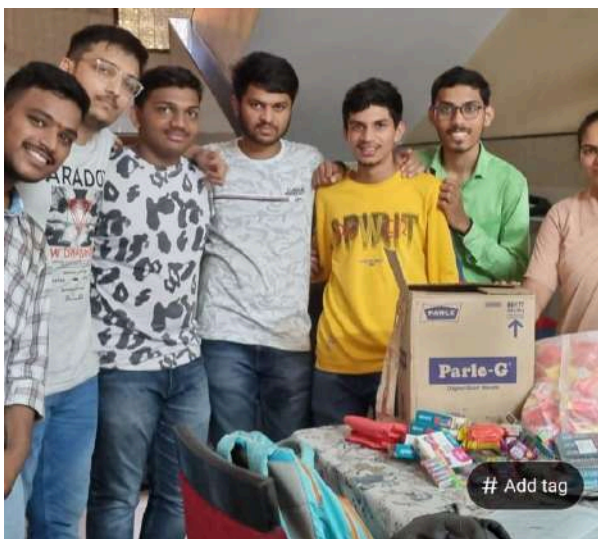

4. Marine Drive Fundraising by selling Lemonade & Snacks/Stationery items distribution at an orphanage

Date: 21st April 2023

Objective: The objective of this event was to raise funds for upcoming community projects through a creative and engaging method. By setting up a lemonade and snacks stand at Marine Drive, the event aimed to leverage high foot traffic areas to maximize fundraising opportunities.

Activities and Responsibilities: Team members were involved in preparing and selling homemade lemonade and snacks. Responsibilities included setting up the sales booth, handling cash transactions, engaging with the public to explain the cause and benefits of their contributions, and maintaining hygiene and safety standards throughout the event.

Conclusion

As a volunteer with the Growing Buds Foundation, I participated in several impactful activities: cleaning Versova Beach to enhance coastal health, raising funds through a lemonade stand at Marine Drive for community projects, and distributing essential stationery to orphans to support their educational needs. These experiences not only contributed to various local improvements but also deepened my commitment to community service and environmental conservation.

TO WHOM IT MAY CONCERN

I am pleased to certify that **Mr. PRADNYESH JAIN**, from the **SARDAR PATEL INSTITUTE OF TECHNOLOGY, MUMBAI** served as a volunteer with us from 21st Mar, 2023 to 12th May, 2023.

During his time as a volunteer, **Mr. PRADNYESH JAIN** exhibited exceptional skills and abilities, and his contributions testament to your passion, leadership, perseverance and advancing the mission and goals of **THE GROWING BUDS FOUNDATION** and making a meaningful difference in the world. His diligence, enthusiasm, and dedication to his assigned tasks were commendable and greatly appreciated by our organization.

It is with great pleasure that we recommend **Mr. PRADNYESH JAIN** for any future endeavors, and we have no doubt that she will continue to excel in her career. We wish him the best of luck in all his future endeavors.

Yours Sincerely,

(Devendra Singh)

Bhavan's Campus, Munshi Nagar, Andheri (West),
Mumbai-400058-India

Abhyudaya is an initiative of Bharatiya Vidya Bhavan, with a unique pedagogic innovation at S. P. Jain Institute of Management and Research (SPJIMR) that aims to foster social responsibility among B-school students through experiential learning. Abhyudaya is a non-profit working with bright but underprivileged children from low-income localities of Andheri K-West ward area. Abhyudaya calls these children as Sitaras. Currently it has 500+ Sitaras in their project, coming from 70 municipal and aided schools. A unique feature of Abhyudaya is that first year MBA students at SPJIMR mentor the Sitaras through home visits.

SPJIMR is located in the Bhavan's campus in Andheri (W), Mumbai, Maharashtra. Sardar Patel Institute of Technology (S.P.I.T.) is also situated in the same campus. With the desire to serve the society and ensuring all dimensional holistic growth of the learner, S.P.I.T. has also introduced a course titled "Mentoring of School Children at SPIT (Abhyudaya)" as a part of curriculum under "ABLL@ LLC"® (Activity Based Liberal Learning about Life, Literature and Culture) in Six semesters in two sequels namely "SEVA"® (Social Empowerment through Various Activities), and "SATVA"® (Self accomplishment through various Activities).

Every term SPIT sends around 80 volunteer students to Abhyudaya under SEVA program. These volunteers help us in many areas. On Sundays, we conduct classes for Abhyudaya Sitaras. SPIT students help them teach Math, Science when our teachers are away. They also reinforce the lessons taught in smaller groups as teacher assistants. At times, they hold doubt solving session for our senior Sitaras. Above all they support us with data entry and library management in our office.

SPJIMR truly appreciate the assistance provided by S.P.I.T. students and look forward to continue working with S.P.I.T.!

BLEAD WITH PRIDE – OCULUS FOR A CAUSE

REPORTING

MANAN SAVLA

The economic crisis that has arisen due to COVID-19 has created challenges for women in the slums and various other rural areas. Lack of access to sanitary pads has led to health and hygiene problems like UTIs, endometritis, and various other fatal diseases. The psychological impact of not being able to work effectively during their period cycle not only damages the mental health of girls but impedes their education as many of them drop out of school.

‘Bleed with pride’ was an initiative taken up by Oculus – S.P.I.T. in collaboration with the TEE Foundation, to address this issue and to spread the word of menstrual hygiene being a necessity and not a luxury. The donation drive of sanitary napkins was organized on 5th December 2021 at the entrance of Sardar Patel Institute of Technology.

The frontrunner of the NGO, Dr. Bharati Lavekar, MLA, Versova, played a huge role in guiding the students of S.P.I.T. in this cause. She is a social worker and recipient of numerous awards for her contribution to women’s upliftment, such as, ‘Ahilyabai Holkar Award’ (2000–2001), ‘Maharashtra Ratna Award’ (2005), ‘Maitrin Monthly Award’ (2005). With the guidance of such a well-renowned social worker, donations of around 18,000+ sanitary pads were received by the students of S.P.I.T.

The donation drive was open to all, and active participation was seen from not only the people from the Bhavan’s campus but also people across the area who showed their presence to contribute to this cause.

‘Oculus for a Cause’ is a prime aspect of Oculus, as students of S.P.I.T. believe in giving back to society, and ‘Bleed with Pride’ was a drive to create Menstrual Health Awareness and propagation through student crowd appeal.

Dr. Bharati Lavekar tweeted about Oculus for a cause on her official Twitter handle.

“In India still, more than 300 million women and girls rely on old clothes/rags. These alarming statistics call for urgent action to spread menstrual health and hygiene practices and ensure easy access to sanitary napkins.

It is a matter of great social pride for us at Oculus to have collaborated with TEE Foundation and extend our humble contribution to their vision of propagating a world, where the girl child can grow up with dignity, respect, and equality to be a strong woman capable of a positive impact to the society.”

–Vedant Gaonkar (Chairperson – Oculus 2022)

PRINCIPAL

BLOOD DONATION DRIVE

Did you know that in India, around a third of the population requires a blood transfusion in their lifetime? Or that every 2 seconds, somewhere in India, someone requires a blood donation?

A blood donation occurs when a person voluntarily has blood drawn which is then used for transfusions made into pharmaceutical medications by a process called fractionation (separation of whole blood components). Donation may be of the entire blood, or specific components only (apheresis). Blood banks often participate in the collection process as well as the procedures that follow it.

The objective of collecting blood through voluntary blood donation are:

1. Provide safe and quality blood and blood components collected from voluntary donors, round the clock, at an affordable cost to the general public and free of cost to the poor.
2. Ensure safety and quality of blood.

Donating blood has benefits for your emotional and physical health –

- It reduces stress
- Improve your emotional well-being
- Benefits your physical health
- Helps get rid of negative feelings
- Provides a sense of belonging and reduces isolation

Considering all the above advantages, the committees of Enactus S.P.I.T and Rotaract Club of S.P.I.T held a blood donation drive in the college on 12th April 2022. The drive was held in collaboration with IIC S.P.I.T and Sir J. J. Mahanagar Blood Bank of Byculla.

The event commenced with a basic introduction about the need for blood donation in our society. A group of four Doctors and 10 assistants had come to the college. Some basic instructions were given by them. The organising

team had arranged all the beds and necessary equipment for them along with tea and samosa for breakfast.

The main event then got started with students from all divisions and branches starting to gather in the hall. The announcement of the procedure had begun which had to be followed by everyone. Initially, everyone had to check their haemoglobin level in the body and for the presence of any other kind of disease before donating their blood. They ensured that those who have a Hg level up to a minimum of at least 12.5 only are eligible for donating blood. These criteria were set for both boys as well as girls.

After around 20 – 30 minutes, the blood donation process for each person got completed and the donors were given juice boxes and biscuits to rehydrate themselves.

A certificate of blood donation was also issued by the Enactus team and a group photo was clicked which was posted on social media. The organisers were able to achieve their minimum target of 50 donors and were glad to see that more people had turned up for the drive than they expected. The doctor and staff were greeted by the chairman of the Enactus and Rotaract teams at

the end of the eve. The entire event promoted social good and helped promote an important social cause in the college.

Report

Event Name: Green Initiative by SPIT 2019

Date of Event: 2019-10-11

Place of Event: Ground Floor

In-Charge Member: Dr. Aarti Karande

On 11th October 2019, the WIE committee hosted a green initiative on account of the IEEE day celebration. Vinod Sikka Sir, Talele Sir and Ambavde Sir were invited as the guests along with Dr Aarti Karande. The core committee of IEEE and WIE met together to plant trees on the ground floor of the campus.

The students selected the empty places to plant saplings in a well-organised way. In order to restore the eco-balance of the afforestation, drive was taken with all seriousness. Core members were highly enthusiastic to make it a big success. So, they planted saplings and fenced them and watered the plants. Every step of the programme was appreciated by the representatives of the administration. The programme created a great stir in the campus.

PLANTATION DRIVE : FY BTech (IT and Comps)

Date : FY BTech (Computers) : 18th October, 2019, 9-11am
FY BTech (IT) : 22nd October, 2019, 3-5pm

Location : Near Gate No 4, Bhavan's Campus, Andheri (W), Mumbai

Type and Number: *Bauhinia blakeana*, 14

REPORT

A plantation drive was organised for FY BTech IT and FYBTech Computers as part of the Environmental Studies curriculum. The preparations for the plantation was started nearly one month in advance as digging had to be carried out by students for planting the saplings. In consultation with the Director, Bhavan's Campus and the landscaping expert, an area was cleared of grass and weeds near Gate No 4, BHavan's Campus and digging was started at the 16 sites which were earmarked for planting the saplings.

A flowering tree, *Bauhinia blakeana* known as "Kanchan" in the local language was chosen to be planted. Commonly called the Hong Kong orchid tree, it is a legume tree of the genus *Bauhinia*, with large thick leaves and striking purplish red flowers. The fragrant, orchid-like flowers bloom from early November to the end of March. Fourteen such saplings were purchased from the Bhavan's nursery along with few bags of soil mixed with manure. The funds for the same were taken from students of the college who contributed Rs 10 each for green initiatives to be taken up during the academic year 2019-20.

The first round of plantation was carried out by **FY BTech Computers on 18th October, 2019** in which eight saplings were planted and a second round was carried out on **22nd October, 2019 for FYBTech IT** in which six saplings were planted.

All students and faculty were invited for the activity. Head of the Applied Sciences and Humanities Department and Dean Student Affairs, Dr Rita Das was present during the activity to encourage the students. Other faculty included Mr Gaurish Nerurkar, Mr Sunil Patankar and Ms Ananthalakshmi. The students participated with enthusiasm and have been instructed to take care of the plants by watering them and undertaking other such measures for nurturing them.

Some pictures taken during the plantation drive are appended below.

Walk for Mangroves

- In order to spread awareness about the environment, we collaborated with **Bhamla Foundation** for an event called **"Walk for Mangroves."**
- This initiative aimed to keep our mangroves clean and healthy as they being an integral part of our ecosystem.
- The event was graced by Youth Leader **Aaditya Thackeray**.
- Volunteers from about 10 colleges, NSS Units, Rotaract Clubs were a part of this project at **Carter Road, Bandra**
- Volunteers from **Beach Please (NGO)** and **MCGM H-ward** also took part in this event.

ABCD- Another Beach Cleanup Drive

Project Nirmalya

- RC S.P.I.T. collaborated with **India for It's Oceans** and **Mobitrash India** for project Nirmalya.
- All the pooja remnants like flowers, leaves were collected and were converted into compost.
- The main task in the project was to convince people to immerse their idols in the artificial pond instead of the beach premises.
- **Over 150 Idols** were immersed till the 13th September 2019.

Beach Cleanups post Ganesh Visarjan

- RC S.P.I.T. volunteered for beach cleanup drives at Juhu, Versova, Dana Pani and Dadar throughout the Ganesh Chaturthi festival.
- We collaborated with like minded organizations like Association of Social Beyond Boundaries, India for It's Oceans, Beach Warriors to take the event to a large scale.
- No of Volunteers who were a part of this project: 125
- Students from various schools, colleges wholeheartedly participated in these projects.
- Our members also managed to spread awareness about Plastic and the importance of circular economy in today's times.

International Coastal Cleanup Awareness

On International Coastal Clean-up Day, over 500 students clean up Juhu beach

The first International Coastal Clean-up Day was celebrated on Monday, February 10, 2014, at Juhu beach. Over 500 students from various schools and colleges participated in the event, which was organized by the Juhu Beach Trust. The students were divided into groups and assigned different areas of the beach to clean. They spent the day picking up litter, including plastic waste, glass, and other debris. The event was a success, with a large amount of trash collected and the beach looking much cleaner. The Juhu Beach Trust is committed to keeping the beach clean and healthy for everyone to enjoy.

- The members of Rotaract club of S.P.I.T. were a part of the International Coastal Cleanup Day event at Juhu Beach on the 21st September 2019.
- Students from schools like Jamnabai Narsee School, Bombay Cambridge School, City International, Shruti School, Salaam Bombay, Asha Kiran Charitable Trust , Angel Express were a part of this mega event.
- The main aim was promote the idea of circular economy among the children and highlight the importance of waste segregation.
- No of Volunteers: 100
- No of Participants: 650

Cleanathon 2019

- On the occasion of 150th Birth Anniversary of Mahatma Gandhi, RC S.P.I.T. was a part of the Cleanathon 2019 under the **Swachh Bharat Abhiyan**.
- The event was held in the areas of Dadar, Parel and Lalbaug.
- One volunteer with a resembling 'poshak' of Mahatma Gandhi led the rally in these areas.
- No of Volunteers who were a part of this project: **600 (25 from RC S.P.I.T.)**

Rotary Diwali Bazar

- The Rotary Club of Mumbai Harmony, Rotary Club of Andheri and Rotary Club of Bombay Mahakali Heights organized the Rotary Diwali Bazar at YMCA, Andheri West on the **19-20 October 2019**.
- The donated items were sold from Rs 10 onwards to **spread the Diwali spirit** among the underprivileged of the society.
- The event was inaugurated by senior Rotarians **PDG Rtn.Subhash Kulkarni and Rtn. Gopal M.**
- RC SPIT along with RC MNWC, RC SPCE, RC LCOO were a small part of the same.

T-shirt painting drive

- RC SPIT organized a T-shirt painting drive on the 14th October 2019 under its club service initiative.
- About 150 students from SPIT and SPCE participated in this fun filled event,
- The t-shirts were donated at various NGOs across the city including Shraddhanand Mahila Ashram, Matunga.
- It was not only a great initiative to bring out the artistic capabilities of students but also provided them a refreshing breather from their hectic schedule.
- The effort proved to be a huge success in providing a refreshment for their minds and igniting a spark of happiness within the less fortunate during the festival of lights.

Potholes: Filling and Awareness

- RC SPIT collaborated with Prakash Foundation to spread awareness about the issue of potholes in Mumbai.
- We received great support from *Mr Dadarao Billhore, Pothole Dada of Mumbai* who has filled about 650 potholes all by himself over the last four years.
- This event wouldn't have been successful without the efforts of the traffic police department, MMRDA, Public Works Department of the BMC.

Rally for Climate Change

- Members from RC SPIT, which stands for Rotaract Club of Sardar Patel Institute of Technology, participated in the Rally for Climate Change organized by Fridays for Future Mumbai. Fridays for Future is a global movement founded by environmental and climate change activist Greta Thunberg. The movement encourages young people to strike from school or work on Fridays to demand urgent action from political leaders to address climate change. Greta Thunberg's activism has inspired countless individuals and groups worldwide to join the fight against climate change, including members of RC SPIT who actively participated in the rally to raise awareness and advocate for meaningful environmental action.

BLOOD DONATION CAMP - Rotaract S.P.I.T

Maintaining its tradition, like every year Rotaract Club of SPIT organized its MEGA Event, The Blood Donation Camp on 26th March 2019. This year the aim of the Club was to provide the blood collected from

donors to the young children fighting with the disease called "Thalassemia" Thalassemia is a disease with no cure, with painful procedures only successful in prolonging life. One of them is blood transfusion at regular intervals. Many young children wait desperately for compatible blood types for a transfusion.

BSES MG Hospital & Blood Bank with its team of doctors visited the college and made a passionate appeal to the students to donate blood. Many students were nervous and afraid of the needles, but upon hearing the plight of the thalassemic children, mustered up the courage to do what was necessary.

This year 100 people from SPIT donated blood for the thalassemic children. Refreshments and a certificate was provided to the donors after donating blood. Unlike every year, this year many faculty members turned up and donated their blood which was also accompanied by the non-teaching staff. Kudos to all those who donated their blood !

Event Name: Karate Workshop

Date of Event: 2019-03-01

Place of Event: Quadrangle

In-Charge Member: Mrs. Aarti Karande

The world is becoming a smaller place. The rate of connectivity is increasing rapidly. The gap between the West and India, now only exists in the form of a timegap. In this growing world, we take many things for granted, like the constant availability of information through Google, the constant provision of cash by ATM's and many things technology and development has provided, that have become an essential part of everyday.

The development of technology has enabled us to follow our heart's desires, wherever they lead us. The only thing that's holding us back, is our safety. Being safe, even a city as modern and developed as Mumbai, is a constant fear. The will to work all night, and strive to perfection, is only hindered, by her inability to go to back home.

Bringing attention to this alarming issue, WIE brought to us, a workshop on self defence. With Padmabhushan Rabindranath Mishra as the instructor, imparting is 36 years of knowledge, the girls learnt various techniques and tricks to help them get out of defenceless situations.

Giving them a hands on experience by demonstrating on his students, he educated the students on various methods they can utilise to set themselves free from the hold of the attacker, and to also injure the attacker. Teaching the students about certain vital points and the techniques to paralyse the attacker within seconds.

Equipped with the knowledge of such self defence techniques, the students can now chase after their dreams, with no fear holding them back.

Event Name: Security

Date of Event: 2019-04-08

Place of Event: 008

In-Charge Member: Dr. Aarti Karande

In today's world women need to continually be on guard against violence from men. Violence can come in a number of ways, places and forms from men. Violence can occur at home in the form of domestic violence as well as out during dates. In addition, assault and harassment can even take place in the workplace.

While violence against women is a serious problem today, women do not have to become victims. By learning simple self-defense techniques, women may be able to protect themselves enough to at the minimum buy some time in order to get help or even fight off attackers to have them leave. Also, using practical common sense methods such as avoid being alone, never go out alone with strangers and never put themselves in potentially dangerous situations.

So bringing attention to this alarming issue, WIE brought to us a panel discussion on the topic of 'Security -A different perspective'. The panel included eminent personalities from different fields. Mona Upadhyaya-a Student Counsellor, Suman mam-A profound lawyer, Jaishri Khillari-Runs an NGO-Strree Shakti Sanvardhan Kendra, Gulab Patil-Inspector at DN Nagar Police Station were a part of the panel. Suman mam gave different insights about the various laws available in the constitution for women security and also engaged the audience by asking their opinions and suggestions for new laws which could be implemented for women safety. Jaishri mam spoke about the importance of mindset and ethics and how preventing unsafe situations is the most important thing to keep in mind. Mona mam being a counsellor gave a psychological point of view to the entire discussion and Inspector Gulab talked about the role of police to help women out of these unsafe situations.

Overall the discussion left the audience with a completely different perspective towards security and safety which helps in promoting a healthy and conducive environment for women in the society.
