Implementation Phase (6 Months) Terms and Conditions:

Responsibilities of JUNO

- Conduct a detailed system study and develop detailed SOW for all modules.
- Prepare the detailed implementation plan after getting written sign off from the SPIT Point of Contact.
- Carry out up to 200 hours of customizations required within the agreed scope of work. {It is understood that all system modifications and adaptations required will be included in the one time set up implementation. Any major modification required post 200 hours customization in excess of 200 hours will be jointly discussed and decided as separate scope.}
- Provide two demonstrations of any functionality/work-flow/module. The demonstration will be repeated only once if any change has been incorporated.
- Migration of master data and other relevant data sets.
- Integration with one set of Biometric devices and SMS & Email gateway in the first year and one more set of devices in first three year.
- The implementation phase begins immediately after payment of one time setup cost.

Responsibilities of SPIT

- Appoint one in charge / champion/process owner for each module who will be responsible for defining processes and workflows and ensuring timely data collection / demonstration / sign offs.
- Use Payment Gateway that comes pre-integrated with JUNO Campus for all fee/payment collection.
- Provide written sign-off within 2 days of demonstration of any functionality / work-flow / module. The implementation of the said functionality / work-flow / module will be deemed completed / accepted if it is put to use in live environment or any query / objection is not received in writing within 7 days of the demonstration.
- Allocate team of functional resources for each institute/department to assist Implementation Team during the implementation phase.
- All necessary data / work-flows needed for implementation will be provided by SPIT in soft copy (row-column format) within a week of such request being made. Any delay in handover of data can impact the implementation plan and timelines.

Other Terms & Conditions:

- Any customization request after Implementation Phase will be evaluated and may be charged depending on the scope of work.
- Any change in hardware, hardware vendor or SMS / Email gateway will be chargeable after two iterations of hardware integration within 3 years
- Integration with 3rd party software / tool / ERP will be evaluated and may be charged depending on the scope of work.

AMC Phase (After 6 Months from PO Date) Terms and Conditions:

- Scope of Annual Maintenance & Support will include bug fixes and online help for admins and end-users.
- Scope of AMC will also include upgradation and minor modifications of the given modules.
- In case of significant modifications, the cost of modification will be decided jointly.
- SPIT can avail 30 hours of free admin/user training every year. SPIT will arrange for appropriate onsite accommodation, food and travel (from Pune) if onsite training is required.
- SPIT will make available required systems and internet bandwidth to during implementation and AMC period.
- Any issue related to software will be resolved by JUNO Campus Help Desk at www.juno.org.in/support (or e-mail at support@juno.org.in) using Ticketing System.
- Any system change will be done at the backend and concerned users or admin/organization will be appropriately notified through email/popups.
- SPIT will not, during the Implementation & AMC period and two-year period after the termination of AMC contract, hire/contract any personnel employed/contracted with Juno Software Systems Private Limited.

Module	Module wise Feature List
Academics	Courses, Subject, Syllabus, Subject allocation, timetable, attendance, evaluation, feedback, Class register, daily monitoring, on-line test.
Teaching	A integrated module with academic calendar, academic planning, scheduling, course file, mentoring, practicals, projects.
Admissions	Course configuration, admission process, criteria and seats. Seats categories, eligibility of admission, Entrance test, fees, admission cancellations, applicant profile, document management, online forms, ID cards.
Examination	Exam centres, assessment centres, paper setting, exam scheduling, invigilation, result compilation, revaluation, mark sheets generation, exam log generation.
Attendance	Muster, attendance entry, login-based attendance, biometric-based attendance, barcode-scanning based attendance, analytical reports.
Course File	Course File includes academic calendar, lesson plan, delivery report, assignments, tests, question banks, subject notes, attendance and evaluation.
Performance	Goal settings, student feedback, standard academic appraisal, customized appraisal, and analytical reports.
Feedback	Academic-specific feedback, customizable evaluation parameters, key process areas, grading, and analytics
Placements	Manages the entire campus placement process. Jobs posting, walk-ins, and registration of eligible students, placement event handling, career guidance, pre-screening, testing and reports.
Research	Research projects, publications, conferences, journals, patents, copyrights and reports.
Profile	Profiles of employee and students includes personal, educational, work experience, contributions and achievements, research, patents, conferences, and related reports
Test	This module facilitates objective tests, subjective tests, question banks, question paper generation, evaluation scheme, time-bound answering, negative marking, and reports.
Discussion	This module includes discussion forum, blogs, document sharing, discussion threads and announcements, notices, messages, and poll questions
Communication	Communication thru emailing, attachments, categorization, sending SMS and maintaining history.
Committee	Governance through committee, external/internal members, organizing meetings, organizing events, duties allocation, budget making, expenditure reporting, and related reports.
Project	This module helps students display projects, get mentorship, experienced guidance, idea sharing, sell/buy projects.
Mentoring	Multi-level mentoring, stakeholder meetups, parent reporting, and more.
Worksheet	Includes daily worksheet, on-duty reporting, goal-mapping, and monitoring and control, effort calculation, reporting and analytics.
Scheduler	Personal planner, academic planner, financial planner, placement planner, event planner, reminders, emailing, sending SMS, scheduling, to-do lists, reporting.
Recruitment	Roaster, advertisements, marketing, reservations, applications, scrutiny for eligibility, interviews, grade pays, appointment orders, reporting and analytics.
Office	Muster, roaster, service book, leave accounting, salaries, fees, inward/outward, documentation, and related reports.
Finance	Expense and advance vouchers, ledgers, trial balance, expenditures, income statements, expense statements, balance sheets, budgeting and statistical reporting.
Salary	Grade pay, basic, HRA, gross pay, arrears, deductions, tax saving, salary slips and payroll
Hostel	Room /dormitory allotment, permanent/temporary allotment, night-out applications, grievance management, mess/canteen management, billing and accounting
Inventory	Movement of items, procurement management, stock management, distribution, inventory control, reordering, EOQ and reporting.
Library	Stocking of books/journals/CDs/DVDs/magazines management, membership management, catalogue management, Online Public Access Control (OPAC), transactions, and reporting.
Purchase	Vendor management, letter of intent, quotation, purchase order, invoicing, delivery challan generation, bill payments, receipts making and reporting.
Documents	Desktop-like interface for easy document management, searching, sharing and accessibility from anywhere over the Internet.
Event	Event planning, event designing, participation, logistics, committees, announcements, meetings, budgeting, expenses, resource people, sponsorships, printing, registration, attendance, prizes, summaries, feedback, press coverage, media and reporting.
Transport	Fleet management, vehicle & driver allocation, route management, document renewal, trip management, maintenance & spare parts management, stocking, tracking, finance support, logistics, reporting and other related functions.

2 General Overview

This is a Service Level Agreement (SLA) between Gatikk Technologies having headquarters at 19/20, Konickal Trade Centre, Ettumanoor - Pala Road, Kottayam, Kerala - 686631 (hereafter called as 'GATIKK') and Bhavan's Sardar Patel Institute of technology, Andheri, Mumbai (hereafter called as 'SPIT').

The purpose of this Service Level Agreement (SLA) is to identify the basic services, and any agreed upon optional services, to be provided by GATIKK regarding proCampuz - A complete Campus management system for SPIT.

This SLA covers the period from 2015-16 till 2019-20 and will be reviewed and revised at the end of this period.

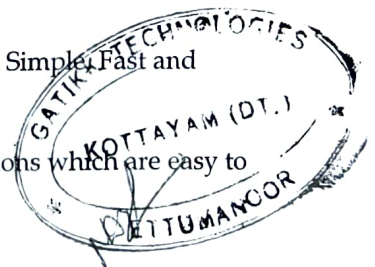

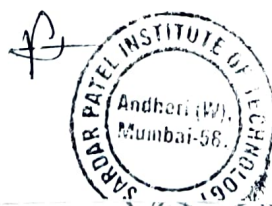

2.1 About GATIKK Technologies

Gatikk Technologies is a Microsoft Biz Spark education software solutions provider. It focuses on creating modern software applications built on the concept of Big Data, Cloud Computing and Web developments. Gatikk specializes in creating state of an art mobile and web applications for academic institutions blending the concept of Academics, Social Networking, Accreditation, Operational & Financial Management, Flipped Classroom, Assessments, Compliance, Corporate Outreach and Alumni.

2.1.1 Our Vision

To be the company that helps academies to achieve Excellence through Simple, Fast and Inspired Solutions.

To build customer faith and confidence by offering products and solutions which are easy to operate, robust, enduring, and evolving.

2.2 About proCampuz: Making Campus without boundaries

proCampuz was crafted with care for education Principals, HOD, Teachers, Placement Officers, HR, Accounts, Librarian and administrators to help them save time, organize the campus activities and improve communication with students, parents and alumni.

2.2.1 Users in proCampuz

Management team - Real time centralized and organized data helps in taking decisive measures.

Principal - Integrated dashboards & detailed reports for effective operational management.

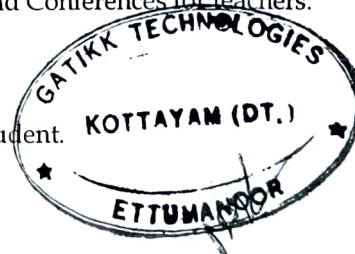

Head of Department - Plan, measure and enhance the performance of department.

Faculty - Automates non-academic task and focuses on student engagement and participation. Tracks Journals, Consultancy and Conferences for teachers.

Student - Manage the academic life cycle of a student.

Alumni - Providing with unique connection, networking analytics and explore new opportunities.

Parent - Engaging the parent through the complete life cycle of a student in the campus.

Accreditation Manager - Measure, Analyse and accelerate your accreditation process.

Placement Officer - Bridges the gap between Academics and Corporates.

Admission Coordinator - Making student on-boarding smart and smooth.

Human Resource - Building and managing staff performance metrics and pay outs.

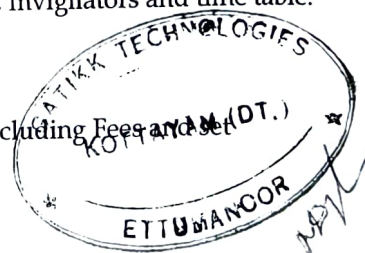

Training Coordinator- Building student skills and abilities.

Exam Coordinator - Manage, regulate and Evaluate University and Internal Exams. Automates Hall tickets, seat arrangements, Invigilators and time table.

Account Manager - Keep track of all incomes including Fees and AM (DT.) reminders for all pending payments.

Transportation Manager – Track your vehicles position as well as critical dates. Automate the bus passes and process flow.

3 Description of Services

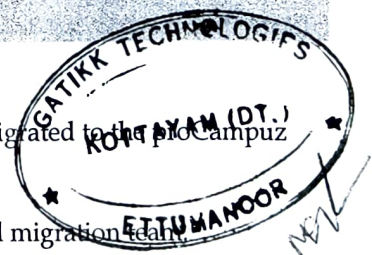

This section describes the services provided by Gatikk Technologies.

3.1 Hosting of Application

1. GATIKK will host the proCampuz application on cloud for SPIT.
2. SPIT users will access the application through internet.
3. SPIT has to ensure the necessary internet bandwidth speed to ensure smooth functioning of proCampuz on Cloud.
4. GATIKK will ensure uptime, bandwidth, response time, speed and accessibility of proCampuz.
5. proCampuz will be hosted on Microsoft Azure™.
6. SPIT has to determine and acquire the domain name through which proCampuz need to be accessed.

3.2 Data Migration

1. The current batch records and passed out batches will be migrated to the proCampuz application.
2. The migration activity will be carried out by our specialized migration team.
3. SPIT have to ensure that all the necessary data are provided to the GATIK team.

3.3 Gap Analysis and Development of Gaps

1. The product team at GATIKK will study the SPIT business process in detail. Following department of SPIT are recommended to schedule meeting with GATIKK.
 - a. Admission
 - b. Accounts
 - c. HR
 - d. Academics
 - e. Office
 - f. Placement
 - g. Alumni
 - h. Examination
2. The GATIKK team will map the business process of SPIT and understand the gaps if any. Any gaps in the process will be converted to logical document and will be developed for SPIT. The cost of development is included in the project cost.
3. SPIT will appoint point of contact for the project who will facilitate the necessary information to team GATIKK to execute the project.

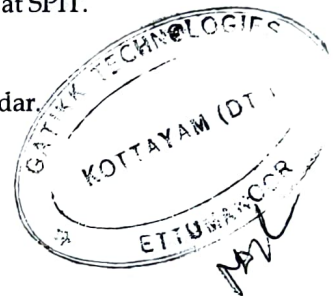

3.4 Appointment of Account Manager

An Account Manager from GATIKK Technologies will be appointed as full time employee at SPIT campus for the period of 1 year starting from the initiation of the project.

The Account Manager will be responsible for following activities in the Campus:

1. Training.
2. Implementation.

3. Installation.
4. Understand Business Process.
5. Point of Contact with the support team at GATIKK office.
6. Manage the time table for training the team at SPIT.
7. Manage the issues list.
8. Close the issues.
9. Sign off the process as per expected by the business users at SPIT.
10. Ensure users are happy with the proCampuz features.
11. The account manager will work as per the Campus Calendar.

4 Service Performance

This section describes how GATIKK team will monitor or track and report on performance. The GATIKK team must perform according to predefined and measurable metrics.

Performance Metric	Description		
Response Time	The response time for the accessing any features of proCampuz on Cloud will be kept at highest performance.		
Throughput	This metric defines the rate that data is delivered to the SPIT. SPIT has to ensure the internet speed of 8 to 10 Mbps all the time in the Campus for better throughput. Also user at SPIT will be able to access the proCampuz application any time and anywhere through any modern browser.		
Customer Support	This metric includes the typical help desk problem reporting and problem resolution guarantees based on severity level. Severity level and response and resolution times are assigned according to their impact on SPIT users. The acceptable response time and resolution time are negotiated between the IT Service Provider and the SPIT.		
	Severity Level	Response Time	Resolution Time
	1	30 minutes	60 minutes
	2	60 minutes	4 hours
	3	3 hours	2 days
	4	1 day	1 week
Availability	The application will be available 99% of the time, 7 days a week, 24 hours per day. Please note: During patch release the application will be closed for accessing and will be informed to SPIT in advance. GATIK team will try to release the patches only during non-working hours except severity level 1 issues.		

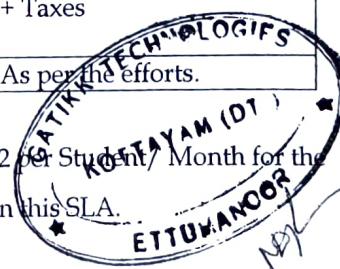

Performance Metric	Description
Issue Recording Methods	GATIKK team will open an online issue management system dedicatedly for SPIT users where the issues will recorded. Users can log the issues into the portal (Which will generate the ticket number) and the first level communication will be done through portal. GATIK team will not entertain any issues without respective ticket number.

5 Service Costs

As decided in the proposal and further agreement, following cost of service is fixed for the access, development and service of proCampuz:

Sr No.	Particulars	Price
1.	proCampuz Licensing	FREE
2.	Implementation Cost	FREE
3.	Legacy Data Migration	FREE
4.	Ongoing Support with one dedicated Account Manager Stationed in your Campus until deployment / sign off	Rs. 36,000/- Per Month + Tax for the first 12 Months.
5.	Customization for First year.	FREE
6.	Annual Maintenance Cost (After First Year of Support and Implementation/ 2 nd Year Onwards)	Rs. 12 Per Student/ Month + Taxes
7.	Customization after first year	As per the efforts.

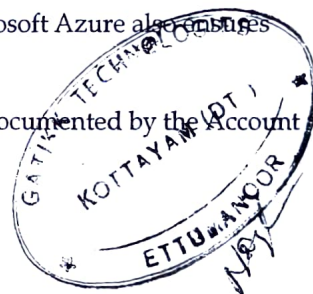

Please note: The Annual Maintenance cost will be fixed at Rs. 12 per Student/ Month for the period of three year from the start of the service as mentioned in this SLA.

6 Problem Management and Disaster Recovery Process

In case of unplanned incidents on Campus data occurs following action will be taken by GATIKK:

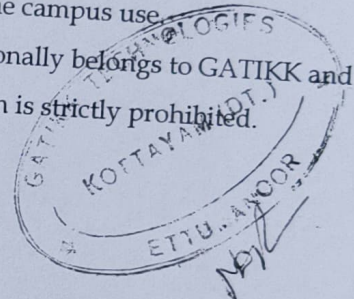

1. Parallel back up plans will be done.
2. The data will be backed up on daily basis.
3. Every month a flat file which has the SPIT transaction and Static data will be handed over to SPIT.
4. All the critical data like Student data, Password, Access rights etc. are encrypted at the application level with the help of two way algorithm. Microsoft Azure also ensures industry standard data security.
5. All the conversation, issues and requirement will be well documented by the Account Manager to ensure better traceability and accountability.

7 Termination of Agreement Process

In case of any unplanned incident occurs where GATIK technologies cease to support SPIT then following action will be taken by GATIKK:

1. The complete latest published application as hosted on Cloud with en-encrypted database will be handed over or installed into server space recommended by SPIT.
2. In case GATIKK cease to operate as a company, then the source code will be handed over SPIT for the non-commercial use dedicatedly for the campus use.
3. The ownership of source code of proCampuz unconditionally belongs to GATIKK and any representation or copy of codes, logics and execution is strictly prohibited.
